## Cool Crisp Salads Are Recommended To Perk Up Lagging Appetites On Hot Days

There's nothing like a cool, crisp salad to perk up fading appetites on hot muggy days, says Virginia Wilson, State College extension nutritionist.

"And," suggests Miss Wilson, "there's nothing quite like a tangy salad dressing to give that 'hum' quality to your salads. A good salad dressing can be thought of as personality of the salad. It marks the difference between a so-so cook and the best cook in town. Just a little ingenuity can go a long way toward making people sing your praises as the 'best salad-maker' in town."

Most salad dressings can be made from three basic recipes, says Miss Wilson. From French dressing, mayonnaise, and cooked salad dressing. Sour cream and a few other dressings fall into a special class. They all keep well if tightly covered and stored in a cool place. No one dressing fits every salad, explains Miss Wilson. Make up a "batch" of

French dressing and mayonnaise to have a hand and then try adding a pinch of this and a pinch of that to give the dressing a special zip.

When using salad dressing purchased in stores, Miss Wilson recommends:

For slaw or tossed salads - Mix well 1-3 cup dressing, 1-3 cup vinegar, 1 teaspoon salt, 1-3 teaspoon sugar, 1 teaspoon prepared mustard, and 1 teaspoon Worcestershire sauce.

For raw apple salads - Mix 4 tablespoons dressing, 2 tablespoons fruit juice (lemon, pineapple, or orange), 2 teaspoons sugar, and 1-4 teaspoon nutmeg.

For fruit salads - Mix 1 tablespoon peanut butter with each 2 tablespoons salad dressing to be used.

In an area less than that of New York City, Hawaii grows 25 percent of all sugar produced under the United States flag, says the National Geographic Society.

## Coronation Of Elizabeth II To Be Broadcast On WPTF

When the Archbishop of Canterbury places the ancient crown of St. Edward upon the head of Queen Elizabeth II on June 2, it will mark not only the first coronation of a British Queen Regnant in 115 years, but will be the dramatic high point of Britain's biggest spectacle.

The entire story of the coronation, with all its pomp, ritual and pageantry will be broadcast over NBC and can be heard in Eastern North Carolina over station WPTF. A series of three programs will be used to cover the coronation and the Queen's address.

First program direct from London will begin at 6:45 a. m. and will last one hour. Morgan Beatty, George Hicks, Henry Cassidy and other top NBC newsmen will describe the procession from Buckingham Palace to Westminster Abbey, the traditional ceremonies of the coronation which include the Recognition, the Anointing, the Investment, the Crowning, and the Enthroning, and the return to the Palace.

A later program at 12:15 p. m. will last one-half hour and will continue with a description of coronation activities.

At 3:45 p. m. WPTF will carry Queen Elizabeth's address to the people of England and Great Britain.

## Duplin Negro NHA Attends Convention At Prairie View, Tex.

Vivian Murree, State Vice-President and a member of the Douglas High N. H. A. Chapter, Warsaw, is attending the National Convention at Prairie View A&M College, Prairie View, Texas, this week.

Vivian, along with eight other girls from all sections of the state, left by train May 22, accompanied by Mrs. M. C. Moffitt, state advisor.

At the meeting the girls will represent North Carolina's 3,481 members in 133 chapters. The theme of the conference is "Contributing to Happy Family Life Through N. H. A." About 300 girls from 16 Southern States are expected. At the convention the girls will receive leadership training, elect their national officers, and set up a national program of work for the coming year.

The New Homemakers of America is made up of Negro pupils of home economics in secondary schools in states having separate schools. Their motto is "Better Homes For A Better Nation."

## Look At Your S. S. Card Now

Have you ever taken a look at your social security card? Not well, take a good look now. Note that it has a number as well as your name. There's a good reason for that number.

The Social Security Administration keeps records for over 100 million American workers. Payments to you after you retire, and to your survivors if you should die, will be based on your record of covered earnings. The number on your card helps the Social Security Administration make sure that your record does not get confused with the record of someone else who may have the same name as yours.

Take care of your social security card. Use it, don't lose it! If you should lose it, get a duplicate at the nearest office of the Social Security Administration.

## Cub Scouts And Families Of Grady On Week-End Camp

The B. F. Grady Scouts Pack and their families camped out of the week-end on the beach near the mouth of the New River in Onslow county. For the past two years the dads have enjoyed a week-end of camping with the boys, but this is the first time the moms have been invited to go along.

Saturday afternoon swimming and a picnic supper were enjoyed. That night a beach hike and a camp fire with singing and story telling paved the way for a good night's sleep. All was well until a rain came at 12:00 which lasted three hours but the spirit of the campers was not dampened. Everyone was up early for a swim and breakfast cooked over an open fire. While chicken stew simmered in an iron pot, the group enjoyed a beach hike for collecting shells, swimming and a Sunday School Service. Cub Master Robert Holt conducted a period with Scripture, singing and prayer and Miss Sallie Outlaw taught the Sunday School lesson for the adults and Mrs. Lehman Williams taught the boys.

After the weary campers packed for home with a new experience in "Family Fun" and a clearer understanding of this month's theme "Mother Nature's Own Back Yard." Boys attending were Robert Smith, Ben Turner, Donald Ray Smith, Dwight Shepard, Thomas, Leon Stroud, Harry Franklin Herring, Harry James Grady, Warren Lanier, Clark Lane, Bobby Holt, Rommie Holt, Melvin Williams, Glenn Williams, and Larry Davis.

Adults were Mr. and Mrs. Hess Davis, Mr. and Mrs. Dempsey Smith, Miss Sallie Outlaw, Mrs. Jasper Herring, Mr. and Mrs. Lehman Williams, Mr. and Mrs. Clayton Stroud and Mr. and Mrs. Robert Holt. Miss Clystie Faye Holt also attended.

## BLUE-PRINT

I dream of a home that looks to the hills, that is sheltered by kindly trees, with a sweep of meadow beyond, where gray rocks hold their mysteries . . .

Where a clear brook winds its way through banks of blue-ets and wild marsh grass; where a group of somber pine trees watch the miracle seasons pass:

The apple blossom-wonder spring, drift of a summer cloud . . . Bright, swift glory of the fall—old winds crying loud . . .

I dream of a home that looks to the hills, to the woods and the fields and the streams, reminding myself, when it seems far-off, that all things first are "Dreams" . . . —Bess Hinson Hines.

## KITCHEN WINDOWS

Every kitchen needs enough daylight for efficiency and safety, housing specialists of the W. S. Department of Agriculture say. But they caution kitchen planners that if windows occupy too much wall space, they may cut down on space needed for convenient storage. The area of window glass should vary with the floor area of the room and with different sections of the country. Where bright sunshine prevails most of the year, as in the Southwest, windows may be smaller than in other parts of the country. The general rule to follow: in the Northeast the window glass area should be equal to at least 15 per cent of the floor area; in the Southwest and Northwest to at least 12 1/2 per cent; in the South, only 10 per cent. These percentages are based on the amount of light hours of daylight and climate in the different sections of the country.

The lighting of the room also depends on how much light is reflected by walls and ceilings and how much is absorbed by window curtains, shades or blinds. Walls and ceilings of light colors with either a dull or semi-gloss finish
