

Courage for Christian Living

ILLUSTRATED SUNDAY SCHOOL LESSON

By Alfred J. Buescher

Scripture—II Timothy 1:12-14; 2:1-15.

Paul, a closely guarded prisoner, soon to die, writes to Timothy that he "has remembrance of thee in my prayers night and day; greatly desiring to see thee, being mindful of thy tears, that I may be filled with joy."

"For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind." For "the appearing of our Saviour Jesus Christ, who hath abolished death, and hath brought life and immortality."

"Thou, therefore, my son, be strong in the grace that is in Christ Jesus. And the things that thou hast heard of me, among many witnesses, the same commit thou to faithful men, who shall be able to teach others also."

"Study to show thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth." Paul writes Timothy during his days in prison awaiting death. MEMORY VERSE—II Timothy 1:7.

For Thou art my lamp, O Lord; and the Lord will lighten my darkness.—(II Samuel 22, 29.)

In these days of confusion and frustration, anxiety and fear, we try this and try that in our search for peace in our souls and minds, for peace among men on earth. But surely all that we try will prove of no avail unless and until we seek God and find Him, and strive to live daily in the light of His love.

Remember About Days At Home?

THE GREAT CREATOR

When we're inclined to be slothful, And some of our duties shirk, Let's try to comprehend the dimensions, Of God's great handiwork.

Remember great rivers and valleys, Mountains, and forests of trees, The great Cataract of Niagra, The flowers, the birds, and the bees.

We are almost dwarfed into obscurity, Though a part of His plan in creation, We forget to give Him honor and credit, We're too large in our own estimation.

Let's remember where we came from, Have you ever read of Adam and Eve? He created the dust that we're made of, He gave us the air that we breathe.

All this is a very small portion, Of the story I'd like to tell, How this planet of ours is so minute, This small world we know so well.

For beyond us in all that great distance, Of endless space you see, So great no one could traverse it, No one, but the Powers that be.

Immense is our own solar system, With all its magnetic attraction, But, say Ostronomers, there are others beyond it, Just as great, and not in abstraction.

We have doctors, and ministers, and professors, There are scientists, and others that be, But none have the power of creation, None other, I say, but He.

So let's Worship the Great Creator, Who has given us the Moon and the Sun, Made our life on this planet possible, And too, He has given us His Son.
