Ciudad Trujillo Is Third Port For the 1954 Virginia Cruise

NORFOLK, Va. — Ciudad Trujillo capital city of the Dominican Republic, the spot where Columbus landed and where he is buried, is the third port of call scheduled for the 1954 Virginia Goodwill Cruise to South America and the West Indies. M. W. Nordlinger, president of the Virginia Cruise Corporation has announced completion of plans for a professionally-guided tour of the city, formerly called Santo Domingo but renamed for the Dominican leader Trujillo. Ciudad Trujillo has been almost completely rebuilt since a devastating hurricane in 1930. Because the government has concentrated on civic improvements, the city immediately impresses visitors with its clean, scrubbed and efficient appearance. Ciudad Trujillo is a fascinating combination of centuries-old civilization and the newest of the new modern buildings, superhighways, spotless streets, huge supermarkets and the West Indies' most elaborate hotels are found among ancient and historic structures. Virginia Cruise passengers will leave the pier in modern buses, traveling along the Ozama River.

They will pass the Tower of Homage built in 1503, where governors and soldiers once swore allegiance to the King of Spain. Virginia Cruisers will see Columbus Castle, built in 1512 by Diego, son of the discoverer. The guided tour will continue through the business district to the Primate Cathedral, the oldest in the New World, begun in 1523 and completed 17 years later. There, under an archway monument, lies the body of Columbus. The royal jewels of Queen Isabella also will be on display, along with other valuable relics of the church treasury. Passengers will visit the city market for strange and interesting food products and handmade straw hats and bags. One of the beautiful sights of Ciudad Trujillo is George Washington Avenue, edging the Caribbean waterfront and leading to the Hotel Jaragua, where a buffet luncheon and native entertainment have been arranged for Virginia Cruise passengers. Native dancers will perform the Merengue, an old Dominican rhythm dance. Afternoon activities will include a sightseeing and shopping tour

through other sections of the colorful city. While the hotel serves international food, tourists are most interested in the native Spanish dishes such as sancocho, a soup with 18 ingredients (including chicken, pork, sausage, pumpkins and yams), casava baked with cheese and arroz con pollo. Money in the Dominican Republic is counted in pesos, worth the same as American dollars. The Virginia Cruise ship is the Holland-American Line's new air-conditioned S. S. Maasdam. The ship will sail from Norfolk on Saturday, January 23, bound for Port of Spain, Trinidad; La Guaira and Caracas, Venezuela; Ciudad Trujillo, and St. Thomas, Virgin Islands. The trade and friendship building venture is co-sponsored by the Virginia State Chamber of Commerce, the Norfolk Port Authority and the 21st Street Business Area Association of Norfolk. Reservations for the 14-day sailing, beginning at \$285, may be booked through recognized travel agents, or the Virginia Cruise offices at 111 North 5th Street, Richmond, and Monticello Hotel Lobby, Norfolk. It's comparatively easy to start something — but it takes grit and stamina to finish it. The would-be reformer is seldom willing to follow the advice he is constantly giving others.

Presenting the mighty aristocrat of light-duty trucks —

the 1954 GMC

GMC's HUSKY NEW STANDARD PICKUP, powered with 125-horsepower engine — most powerful standard six in the field. A de luxe model with chrome grille and trim, two-tone exterior paint and cab rear corner windows is available at extra cost.

Here is the most extraordinary light-duty truck ever built. It has the smart styling of a fine passenger car to give its owners distinction and prestige. A sweeping grille of modern design — a panoramic one-piece windshield — two-tone interiors with harmonizing upholstery — these are some of the luxury features that will make you proud to be seen in it. But its practical side — its capacity for work — is even more exceptional. It hasn't just more power than any truck in its class. It has a whopping 125-horsepower engine — more powerful than many trucks with a two-ton rating. The Pickup — one of 19 models — has a box that holds up to 11 more cubic feet than last year's capacious model. Its tail gate is grain-tight — and sand-tight.

The dials on its handsome instrument panel are clustered. They can be read at one swift glance through the open top-half of a smart tri-spoke wheel. And — a truck feature pioneered by GMC — it offers the driversaving, moneysaving advantages of Truck Hydra-Matic Drive*. One final and surprising point. The price of the GMC, value for value, is unsurpassed anywhere on the truck market. That's the story. The next move is yours. Come in and see "the world's most modern truck." And — make it soon. *Optional at extra cost.
