C. Pridden, Jr. and Mrs. J. C. Pridden, Sr. on Friday afternoon. Planting, planning, freezing and canning according to our own family's need with enough added extra for gifts, guests, or hired help is the requirements for today's busy homemaker and one should not try to stock up in excessive amounts of food, she knows she will not be able to use. Mrs. Johnson pointed out the non-fat dry milk solids on the market are inexpensive to use, with only the fat removed and still containing the other important elements found in fresh milk. It was further stated by the agent that our people in Duplin County are not consuming enough milk, since it is not being produced locally, but with the use of these dry milks the need for fresh milk is lessened.

Mrs. J. C. Pridden, Sr. talked on music with a report on the life of Jerome Kern. Mrs. Peie Holland reported on Health, and Mrs. J. C. Pridden, Jr. gave a demonstration on using sewing machine attachments.

Chicken salad sandwiches, cookies, toasted pecans and iced drinks were served to the 14 members and 3 visitors present.

These bulbs are tubes with built-in ballast. They are fluorescent and need to be replaced. Otherwise, you are paying for light you are not getting. Dispose of old bulbs and tubes carefully so that they will not be broken and will not be a hazard to children especially. Besides the danger of cuts from broken glass, there is chance of harm from materials used inside some fluorescent tubes.
