## May Fellowship To Be Held May 7th.

The first Friday in May which is May 7 is one of the three special days promoted by the General Department of United Church Women. The observance of this day in its true spirit must be interdenominational. Its purpose is to create fellowship among all Protestant Church women of a community and to unite them in a desire and program for improving the community in which they live.

Annually the program centers in some area of interest and need in the local community. The program for May 7, features Christian Citizenship and the responsibility of Christian women for the life and government of the people. The program will suggest some steps that Christian women need to take for better living conditions and forces that govern the lives of people.
