CURE-ALL
 THE SUPERIOR WITH THE SOFT SMOKE PIPE
 THE FOLK WHO SELL CURE-ALLS like to tie a string around that first joint of pipe while the stove is burning. The string won't even color, which means that the big outer drum is radiating the heat out into the barn—wasting it out the flue pipe. And, if it won't burn that string, there won't be any damage if a stick of tobacco should fall against that pipe. Folks who use CURE-ALLS tell you to hang your tobacco right up against the flue pipe. There isn't any wasted space with a CURE-ALL.
 ONLY CURE-ALL HAS A SINGLE CONTROL ASSEMBLY DESIGNED ESPECIALLY FOR A TOBACCO COOKER
 The simple CURE-ALL valve operating all four stoves assures you more dependable performance and a much simpler hook-up.
 Patented Twin Blast burner burns clean on high or low fire. Built to burn No. 2 Fuel Oil Successfully. Cleans with a twist of the wrist after each cure. **\$178.50**
 (Price does not include smoke pipe or installation)
