- Helpful Hints**
1. When lettuce leaves refuse to part without breaking, soak the head in ice water for ten minutes. Shake off surplus water, wrap in a damp cloth, and place in refrigerator. When ready to use leaves will part easily.
 2. To peel oranges or grapefruit and free fruit entirely, place fruit in hot water for ten minutes.
 3. Rinse a pan in cold water before scalding milk to prevent sticking.
 4. To melt chocolate, grease pot in which it is to be melted.
 5. To keep cheese fresh, cover it with a damp cloth moistened with vinegar.
 6. To measure syrup and molasses, grease cup in which it is to be measured.
 7. Place a piece of apple in your brown sugar jar and it will keep the sugar from drying out and lumping. Try the same cure for too-dry cookies.
 8. To prevent waste of eggs from cracking when they are to be boiled, allow them to stand a few minutes in very warm water before putting them in boiling water.
 9. The way to prevent the burnt taste from scorched milk, put the pan in cold water, adding a pinch of salt to the milk.
 10. To clear fat of sediment unwanted flavors, and foreign matter, add potato slices to melted fat and fry until slices are brown. The potato will "sponge up" any extraneous flavors and most of the sediment.
- PVT. DEMPSEY L. ARNETTE**
U. S. ARMY, ALASKA - Pvt. Dempsey L. Arnette, son of Mr. and Mrs. Fred Arnette, Bowden, is serving in Alaska with the Army at the Fort of Whittier.
- Army units stationed in Alaska undergo intensive field training while guarding the northern approaches to the United States.
- Arnette, who entered the Army in December, 1952, arrived in Alaska this month from Fort Belvoir, Virginia.
- The 1954 edition of the Wake Forest College annual is dedicated to basketball coach Murray Greeson.

Chinquapin Chats

Warsaw last week.

Bible School began a week's study Monday with a record crowd and here's hoping not a child will miss the opportunity to be here all week. Friday night it's hoping all parents will attend the exercises looked forward to so much.

Mrs. Rosmond Rhodes and Miss Bertha Rhodes of Richlands stopped over last week enroute to Lumberton to visit a daughter, Mr. and Mrs. Pete Shaw.

Mr. Joy Wood has been ill at his home here for a few days. Friends hope him a speedy recovery and be able to be out again soon.

Mr. and Mrs. Foy Brown and sons of Jacksonville, Raybourn and Danny, spent a recent week end with Mr. and Mrs. Louis Fountain and family.

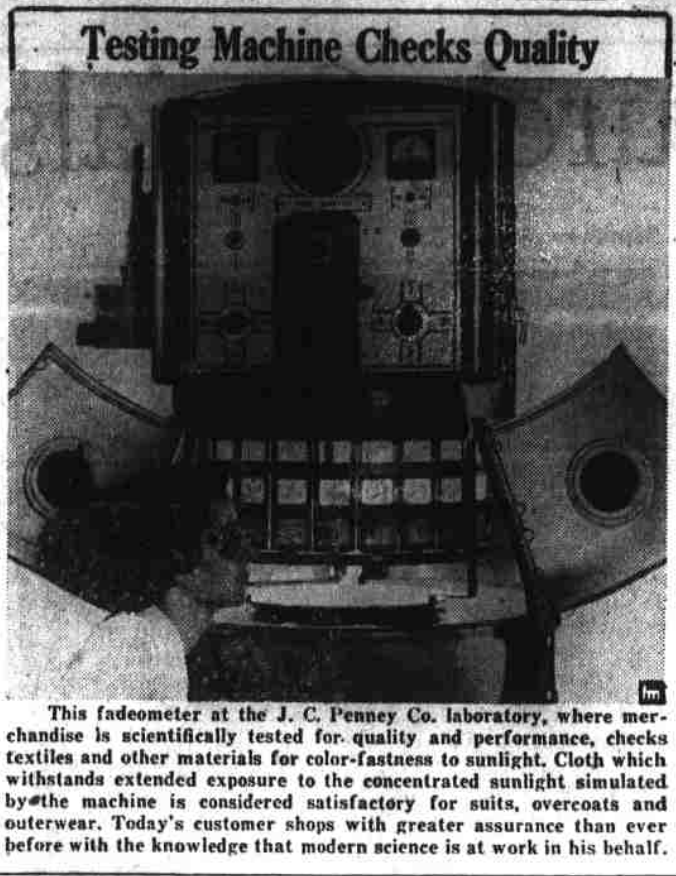

Friends - don't go hungry on Saturday nights - Enjoy a Bar-B-Cue and Chicken supper for the taste and EXPENSE - of completing the Bethlehem F. B. Church in Fountain Town - which is almost completed outside. Decorative - windows are already attracting much attention here due to the beauty of them. Suppers will now be served in the basement - kitchen from now on.

Friends of Mrs. Cora J. Sanderson surprised her at her new home in Beaulville last week with a "House Warming Shower," sponsored by Mrs. Clara Scholar, Mrs. Jimmie Southerland and Mrs. Tom Ives. Many useful gifts were enjoyed and Mrs. Southerland is still in a state of "Shock & Appreciation!"

Watch Out For Fake Termite Exterminators

A warning to home owners against fraudulent termite exterminators has been given by the Better Business Bureau.

They say that already this spring there have been several reports of questionable practices by so called exterminators. There are many reliable operators in North Carolina.

Testing Machine Checks Quality

This fadeometer at the J. C. Penney Co. laboratory, where merchandise is scientifically tested for quality and performance, checks textiles and other materials for color-fastness to sunlight. Cloth which withstands extended exposure to the concentrated sunlight simulated by the machine is considered satisfactory for suits, overcoats and outerwear. Today's customer shops with greater assurance than ever before with the knowledge that modern science is at work in his behalf.

Further Supreme Court Rulings On Racial-Segregation Cases

Within ten days after the United States Supreme Court handed down its public school segregation decision on May 17, the high tribunal made further rulings on three segregation cases in places other than public schools.

The court sent back to lower courts two racial segregation cases, won in the lower courts by Negroes, stating that there was no reason to hear these cases because of the courts ruling on school segregation cases. These two cases concerned:

1. Three Negroes had sued the San Francisco Housing Authority for admission to a project which had been built for Italian families. The Negroes were refused admission on the grounds of a "neighborhood pattern policy" which the city said would protect the racial composition of the neighborhoods in which the projects were located.
- The California District Court of Appeals had said that the "neighborhood pattern policy" violated the Fourteenth Amendment and had stated that the Negroes must be admitted.
2. In Houston, Texas, a Negro was refused admission to a municipal golf course reserved for white players, and the Court of Appeals held that his constitutional rights had been violated.

In the third case sent back to the

and it pays to check on the operator you intend to hire.

Termite work slowly, but persistently, and you have time to check the exterminator's reputation before you hire him. A delay of a few weeks, or even months, will make little difference.

The Better Business Bureau are cooperating with the North Carolina Pest Control Operators' Association regarding the reliability of people who solicit work in termite control. If you will contact any one of these organizations, they will be glad to help.

Here are some tips on how you can gauge the reliability of persons offering termite control service.

If you are told that termites will soon ruin or cause your house to the firm as questionable. Firms which charge according to the amount of chemical used like wise are questionable. Any good termite operator can estimate the cost just as a carpenter can estimate the cost of a repair job.

22 of this total will be taken from the Wilmington Navy recruiting office which serves an area covered by the following counties: Bladen, Brunswick, Columbus, Duplin, New Hanover, Onslow, Pender, Robeson, Sampson and Scotland. Any young man interested in obtaining information concerning the benefits of a Naval career may contact his Navy recruiter through the Postmaster at the county seat of any of the above named counties.

Seventeen Men Inducted June 25

Seventeen men from Duplin County left June 25 for induction into the Armed Forces. The nine white men were: Marshall Henry Carr, Jr., Wallace; Daniel Henry James, Rose Hill; Elwin Wells, Teachey; David Allen Sandlin, Beaulville; Roger Everton, Beaulville; Randolph Houston, Beaulville; Samuel Louis Rivenbark, Willard; William Franklin Johnson, Wallace; James Raeford Edwards, Rose Hill. Colored were: Raphael Wayman Carlton, Wallace; David Lawrence Jenkins, Seven Springs; Jerry Sutton, Rose Hill; William P. Fennell, Rose Hill; Ethelle Stevens, Mount Olive; Garfield Matthis, Magnolia; Johnny Moses Fisher, Wallace and James Mathis Bowden, Magnolia.

The next pre-induction examination will be held on July 28.

NOTICE

It is very important that all men who are registered for the draft, to notify the draft board their change of address.

Those who have been classified as 4F are subject to reclassification.

Too Many Crops Become Problem

Diversification of farm operations is all right, says J. W. Brown, Martin County Negro farmer but don't carry a good thing too far.

Brown, who lives at Jamesville, Route 1, is thoroughly convinced that tobacco, peanuts, corn and four commercial vegetable crops is just a bit too much for one man to handle, says R. McK. Edwards, Martin County Negro farm agent for the Agricultural Extension Service.

As a result of trying to spread his labor too thin, says Edwards, Brown has found that his big money crops, peanuts and tobacco, have suffered from neglect. "It will take the profit from his beans and cucumbers to get the grass out of his tobacco and peanuts," says the Negro County Agent.

BRITT'S DO-NUTS
Carolina Beach, N. C.

To add to this trouble, says Edwards, Brown has found that the price of beans this year "will barely cover the cost of baskets and picking."

The point of diversifying farm operations is to have income to cover a greater part of the year, says Edwards. But he advises farmers not to carry diversifications too far.

The Wake Forest College Choir travelled over 2,000 miles and made over 30 appearances during its 1954 spring tour in North Carolina.

Construction began recently on the \$1,728,121 brick gymnasium on the new Wake Forest College campus. The big building will contain almost 3,000,000 cubic feet of space.
