-and only \$2295.00* buys it!

And get this - That's the local delivered price of the New Buick Special V8

2-DOOR, 6-PASSENGER SEDAN Model 48D

Have you been thinking you can't afford a new Buick? Listen: If you can afford any new car, you can afford a Buick - and we boldly show our price here to prove it. Look again, and you'll see that this is the local delivered price of the new Buick SPECIAL 2-door, 6-passenger Sedan. Compare, and you'll learn that this price is just a few dollars away from those of the so-called "low-price three."

But - dig a little deeper if you want the real clincher. That's when you find that those few dollars more you pay for a Buick buy you a lot more automobile. They buy a whale of a lot more power - Buick V8 power - plus the new economy of Power-Head combustion. They buy a lot more luxury and comfort and solidity - more room, more glass area, more frame strength, more tread width, more ride steadiness - including the million dollar "feel" of all-coil springing and torque-tube stability. They buy, too, the most advanced styling of the times, and the great panoramic windshield, and the surety that such fresh-looking beauty will stay in the style parade for seasons to come. (That means a better deal for you come resale time.)

Is it any wonder, then, that Buick now outsells all other cars in America except two of the so-called "low-price three"?

Come in for a demonstration - this week, for sure. And learn, in the doing, what a big trade-in allowance our volume sales can bring you.
