Help Us

During the past two months the Kenansville Fire Department has been kept busy answering fire calls of various kinds. These men are doing as good a job as might be expected of them for the kinds of fires to which they have been called. They have been most unselfish in response and activity and have spent considerable time and effort for community service. Firefighting at its best and simplest is a hazardous occupation - no one sees it more clearly than do those who have gone through the process. The laws of the state and common sense require all bystanders to stay out of the way of firemen and equipment.

On last Sunday night, as on several previous occasions, the people were most uncooperative in this matter and added a greater hazard to the fire service. The blocking of a road by more than a score of vehicles not belonging to firemen prevented firemen from driving to the scene of the fire and also prevented the withdrawal of fire apparatus from the scene of the fire for nearly a half hour. During all that time equipment and personnel were tied up so that they could not have responded to any other call that might have been received. Also, if a fireman had been injured he could not have been taken to a doctor or hospital in that time.

The Fire Department does not wish to seem to be stepping out-of-bounds, but in this matter it is law that the officials of a fire department can indict any person or persons who get in the way, who fail to yield right-of-way to sirens or red lights, and who block drives or roads thereby preventing freedom of movement of fire apparatus. It is a violation of law for an outsider to follow a fire truck in response to a fire.

We trust that in the future we shall not have this trouble. However, if anyone should cause any of the above to happen, consider yourself under arrest. The officers of the Fire Department are authorized and will present bill or ticket of indictment. Please cooperate that these measures shall not be necessary. Help us to help you save your life and property.

Johnny Williams of Pink Hill, Route 2, an occupant of the Turner car was the only one who was seriously injured, but both car and truck were complete wrecks.

Be Ye Kind To Dumb Animals

Being kind to dumb animals is a mighty fine way for any one to be but it can cause a "stink" at times. Such was the case with Dr. C. F. Hawes of Rose Hill. We will begin by saying that Dr. Hawes has all kinds of consideration for animals and reptiles as well as humans. One day recently he was riding along the highway when he spotted a turtle creeping along. Being a humanitarian Dr. Hawes picked up the turtle and put him in the car, with the intention of providing the reptile with a home. Being a very busy man, the turtle was forgotten until a few days later when a bad odor was detected in the car by Mrs. Faircloth. The car was taken to Faircloth's garage where the seats were removed, and upon the removal of part of the upholstery in the back of the car there was the turtle "dead, as a door nail." It just goes to prove that creatures as slow as turtles can make a quick get away.

SAFETY PROGRAM County Law Officers will be on the alert over the Holiday weekend with checking stations all over the county. There will be electrical speed checking devices and radars at these stations with a patrolman to answer any questions travelers would like to ask pertaining to motor vehicle law or any other questions. There will be a wrecked car at each station that someone has been seriously injured in to remind travelers that it could be anyone. Let's all strive to make Duplin County Facility Free over the Holiday weekend.

Refusal To Sell Watermelons Ends In Fight

Leo Middleton of Kenansville and Mayo Pickett, both colored, of Chinquapin, were jailed early Wednesday morning for assault with a deadly weapon on J. A. Alphin, white which took place late Tuesday evening. Middleton and Pickett went to the Alphin home, which is located about three miles northwest of Kenansville, on Tuesday evening to buy some watermelons. Upon their request for the melons, Alphin told them he did not want to go to the field for them. Middleton insisted and began using profane language while in the presence of Alphin's wife. Alphin asked them to leave and after their refusal, Alphin struck at Middleton and Middleton began cutting Alphin with a pocket knife, inflicting injuries to Alphin's arm which required medical attention.

During the fracas Pickett left the car, they were riding in and became involved in a fight with Robert Alphin, J. A.'s brother. Middleton left the scene but Pickett remained in the car in Alphin's yard, until Wednesday morning when he was arrested by deputies W. O. Houston and Shiver. Middleton was arrested at his home. Both men were lodged in jail but were released under bond. Middleton is out under a \$1000 bond and Pickett was released under \$500 bond.

Eastern Tobacco Market Weekly Report

WILSON - Average prices by grades for Eastern North Carolina flue-cured tobacco were generally steady to slightly lower during the second week of auctions. Volume of sales was extremely light most of the week but fairly heavy on Friday. Quality of offerings showed some improvement when compared with opening week reports the Federal-State Market News Service. Sales for the week ending Friday, August 27, totaled 25,414,408 pounds and averaged \$33.12 per hundred. The average was only 21 cents a pound above that of the first week. Volume increased around 15.8 million pounds. Season sales reached 36,633,508 pounds for an average of \$36.05. During the first ten days last year \$5,812,592 pounds had averaged \$33.85. Around half of the grade averages were lower. Losses generally amounted to \$7.00 and \$2.00 per hundred pounds. Several scattered grades showed similar gains. Most offerings were bringing from \$5.00 to \$10.00 above their Government loan rates. However, several better quality grades were even with or only slightly above their support. The percentage of leaf offerings showed a sharp increase. Primings and lugs decreased in proportion. The ration of nondescript offerings was smaller. Bulk of marketings consisted of low and fair leaf, low to good primings and fair and good lugs. Receipts from the Government loan for the week amounted to \$1,000,000.
