Facts As I See Them

By VIDA MILLOY I can say that in my experiences, that an adding machine may not be the thing that counts most in life, but they certainly count up at the grocery exit. It's not always the best opportunity or the biggest that makes success in business or anything else, it is making use of the small ones that counts. If you have a closed mind, why not try prizing it open once in a while? It's like a Parachute, it only works when open. You may ask, well, a parachute only opens after one jumps. Well, you have me there, but the Bible says "The only way to see the light of day, is to put out our own candle." Which in my interpretation would be, or mean, "Shut our eyes to the worldly things which I think means having to use our minds to see the Light." If you know what I mean. Our minds are the only means by which we can prepare ourselves for goodness, or badness. Heaven and Hell are prepared places for prepared peoples, it's all written and most have read it. What does your mind tell you? If you tell a secret how in the world can you expect someone else, and the one you tell it to, to keep it? The wages of a Good Secret, told, or the wages of Sin, have never been reduced. Is telling a secret a sin? No wonder we all sin then! Look at the pleasures enjoyed by telling secrets. Most of us are guilty of it, no matter how much trouble it costs, we tell secrets. How much better it is to enjoy a clear conscience. Telling secrets is like robbery, or stealing, to my mind. How much better it is to enjoy a honest peace of mind and good conscience. It is the one thing we cannot be robbed of, no matter what we feel we have been deprived of in this life. How few of us have enough to brag about. Are you one of those who think Charity is giving advice to peoples which they cannot even use themselves? If you are accustomed to riding with other people, you can tell who it is by, after you shut the door, they will most always pull it to again and slam it a little harder—watch it. Now that this part of the country knows how cold it could be and that the wind can blow, in it we can all at part sympathize with our northern and tropical neighbors! But for any other reason you ever feel blue and have that old "let down feeling", and feel the world is all against you, try showering a few words of kindness and acts of goodness toward someone who deserves it, or someone who doesn't for that matter. Things of this sort will always help cut down on a lot of meanness, usually in most of us, which is the bases of such feelings in the first place. The majority of us would be "ruin" without our credit, but are you one of those who find that the place their credit is best is when they start "borrowing troubles"? It's always the easiest to pay back, and usually the first on the list of bills. It's probably the most "un-
