**PRELIMINARY CERTIFICATE OF DISSOLUTION**

**To All to Whom These Presents May Come—Greetings:**  
 Whereas, it appears to my satisfaction, by duly authenticated record of the proceedings for the voluntary dissolution thereof by the unanimous consent of all the stockholders, deposited in my office, that the Beaulaville Industrial Corporation, a corporation of this State, whose principal office is situated in the Town of Beaulaville, County of Duplin, State of North Carolina (Russell J. Lanier being the agent therein and in charge thereof, upon whom process may be served), has complied with the requirements of Chapter 55, General Statutes, entitled "Corporations," preliminary to the issuing of this Certificate of Dissolution:  
 Now therefore, I, Thad Eure, Secretary of State of the State of North Carolina, do hereby certify that the said corporation did, on the 4th day of May 1955, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by all the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law.  
 In testimony whereof, I have hereunto set my hand and affixed my official seal at Raleigh, this 4th day of May, A. D. 1955.  
 Thad Eure  
 Secretary of State  
 6 2 4T R. J. L.

**ADMINISTRATRIX NOTICE TO CREDITORS**  
 Having qualified as administratrix of the estate of Mrs. Lola Potts, deceased, late of Duplin County, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned at Clinton, North Carolina on or before the 17th day of May, 1956, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.  
 This 17th day of May, 1955.  
 Frances Potts, Administratrix of Lola Potts.

**COTTON FABRICS**  
 Tests of cotton dress fabrics, reported by the Missouri Experiment Station, may be helpful to the homemaker who is buying readymade cotton clothes or yard goods to make into clothes. Two cotton percales, a gingham and a nubby fabric—with and without resin-finish for crease-resistance—were laundered 20 times and checked at intervals for shrinkage, crease-resistance, flatness of seams, and fraying of edges.  
 The Station reports the resin-finished fabrics were as easy to care

**Garden Time**

The sweet potato is a relatively easy crop to grow but at the same time we can grow a better and higher quality crop with just a little extra attention to details. In the first place, get good plants — certified plants, if possible. With all the serious diseases that attack the sweet potato you are taking a big chance of bringing them into your garden or fields by means of infected plants. Black root, wilt and scurf will live over in the soil for several years after they are brought in, and internal cork is becoming a serious problem to sweet potato growers. We believe that the best time to plant is June 1st to 10th, unless you intend to take vine cuttings, in which case earlier planting would be in order. The most satisfactory variety for our conditions has been the Porto Rico. However, a new variety named "Goldrush" introduced by the Louisiana Agr. Exp. Station, is becoming quite popular. This variety is a good yielder, has deep orange colored flesh, is somewhat resistant to wilt disease but is very susceptible to internal cork. Another new variety which is gaining in popularity is the "Kandee". It originated in Kansas, and has a firmer flesh than either Porto Rico or Goldrush. It is of very good quality.

The best soil for sweet potatoes is a fine sandy loam soil that does not pack. The fertilizer recommendation is 500 to 1,000 pounds per acre of a 4-12-12 mixture plus 10 pounds of borax per ton, applied in the ridge about a week before setting the plants. Manure should not be used for sweet potatoes, and too much nitrogen will make a poor quality crop. A ridge about 12-14 inches high is best and the plants should be set 10 to 12 inches apart in the row with rows 3 1-2 feet apart.

The tests were made because the crease resistant finishes made by applying synthetic resin to cotton fabric have attracted the attention of consumers. But because cotton garments are laundered, consumers want to know how well the finish stands up under laundering. If too much resin is lost "in the wash", the fabrics might soon lack the very qualities for which it was purchased.

Words of the Wise  
 No man is rich whose expenditures exceed his means, and no one is poor whose incomings exceed his outgoings.  
 —(Thomas Halliburton)

Although our marketing agencies refer to sweet potatoes as yams, they are not true yams. The sweet potato belongs to the morning glory family, and although the true yam has a large root resembling the sweet potato, it belongs to an entirely different botanical family of plants.

It is significant that since Howrey has been serving as chairman, this vital FTC ruling has not been enforced. Now Howrey, FTC head, goes on record as opposing principle involved, same position he took prior to appointment as a rubber corporation attorney.

General Douglas MacArthur was removed from command for much less.

But this is not only evidence of current silliness along the Potomac. Recently, Senators seeking facts about foreign giveaway program, and specifically on a contract that looked as if it appeared the American FOA has "lend leased" an Iron Curtain from the Soviet GPU.

Besides being head of "operation giveaway," Stassen is now also filling a specially created job to promote disarmament and world peace.

With this act of censorship in mind, some observers express hope Stassen's first official act as peace promoter will not be clamping rigid censorship down on age old expression "Peace on earth and goodwill to men." It is somehow felt there must be some limitations on bureaucrats.

Apparently, even Howrey recognizes the absurdity. In commenting on fact that he signed report which included recommending elimination of anti-trust laws, Howrey is quoted "This should not be construed as pre-judgment of issues which may come before the commission in individual cases."

Inasmuch as FTC is quasi-judicial body, this is somewhat akin to situation that would exist if judge went on solemn record stating pickpockets do no wrong, then orally assuring everyone this would have no bearing on his trials of pickpockets.

Howrey's appointment was opposed by National Federation of Independent Business on grounds he was actively engaged as lawyer for rubber firm fighting FTC quantity discount rule.

This still to be enforced ruling provides there is reasonable limit to quantity a dealer must take to obtain top discount.

**NATIONAL EDITORIAL ASSOCIATION**

**Sales get BIGGER! and BIGGER! and BIGGER!**

**This '55 Buick must have something that folks just won't do without!**

**PICK YOUR CAR FROM THE HOTTEST-SELLING BUICKS IN HISTORY**  
 There's a Buick to fit every purse and purpose—the budget-priced SPECIAL, the high-powered CENTURY, the extra-spacious SUPER (illustrated here in the Riviera model), and the custom-built ROADMASTER.

**Two months ago, in the public print, we said that this looks like Buick's biggest year—and we weren't fooling.**  
 But what has happened—and continues to happen—is almost beyond belief.  
 People buy up these stunning new Buicks practically as fast as we get them from the factory. Buick production—already revised upward several times—keeps forging ahead to new highs every month to meet the mounting demand.  
 And Buick sales keep soaring higher and higher and higher—outstripping by far the phenomenal success of last year—the success that moved Buick into the "Big Three" of America's best sellers.

**What is it about the '55 Buicks that folks by the hundreds of thousands just won't do without? It's many things.**  
 It's styling that's boldly distinctive and fresh as tomorrow. It's beauty of line and beauty of interior décor. It's a ride that's level, firm and steady. It's a new sweetness of handling. It's great power—walloping new V8 power of record might.  
 But above all, it's a new kind of performance, from a new kind of automatic transmission that was born of flight thinking.  
 It's Variable Pitch Dynaflo\*—engineered from the principle of the modern plane's switch-pitch propeller—and what it brings you in the way of pure thrill, mere words can't describe.  
 Just you drop in on us this very week and try it. That way you can see what a terrific automobile—and a terrific buy—the hottest-selling Buick of all time really is.  
 \*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.
