Others playing were Mesdames Ben Frederick, Robert Troy, Dave Webber, W. H. Fussell, Robert Herring, Robert Frederick and Dan Fussell.

The hostess served delicious lemon ice box pie and coffee.

## Pruning Melons Adds Size, Quality

Tar Heel watermelon growers can sell more 30-pound or larger melons if they prune them, says H. M. Covington, extension horticulture specialist at State College.

Covington says that pruning is a very simple operation that requires little time but increase melon size and quality. It amounts to a thinning and culling job done at the same time. It's done simply by saving only two of the largest, but most ideally shaped melons, free of diseases, per plant. All the others must go including the smallest.

If the grower prunes when the first melons are the size of a quart fruit jar, it practically assures him of two 30-pound or larger melons per plant even during dry weather conditions.

Since the 1955 acreage of watermelons for North Carolina is estimated at 14,000 acres compared to 11,000 acres in 1954 and South Carolina's acres is one of the largest ever planted, it is even more important than usual that growers produce larger, quality melons.

## Rose Hill Music Club Met Thursday

The Rose Hill Music Club met Tuesday evening, June 14, at the home of Mrs. Granville Sheffield with Mrs. Kenneth Farrior and Mrs. Horace Ward as hostesses.

Mrs. John Cooper, Jr., president, presided. During the business meeting the following officers were elected for the coming year. President, Mrs. W. S. Wells; vice-president, Mrs. Dennis Ramsey; Recording Secretary, Mrs. John Cooper, Jr.; Treasurer, Mrs. W. G. Brummitt; Corresponding Secretary, Mrs. S. V. Wilkins. Mrs. Dennis Ramsey and Mrs. H. C. Marshall were appointed as program committee for the new year.

Mrs. L. A. Wilson gave a very interesting report on the State Convention held at Hickory in May. The Rose Hill Club received a certificate for achieving a one hundred per cent rating for the past year. A rising vote of thanks was given Mrs. Cooper for her service as president the past two years.

Mrs. H. C. Marshall was in charge of the program which was "Classic and Romantic elements in Art." Miss Marsha Fussell played a program of recorded music including "Waldstein Sonata" by Beethoven, with Walter Gieseking, at the piano, "Rhapsody in Blue" by Gershwin and with Jesus Maria Sonrama, pianist and Victor Symphony Orchestra, Charles O'Connell, conductor.

"Concerto No. 1" in B flat minor by Tchaikowsky, by the same orchestra as above.

Plans were made to invite Charles Fussell, pianist of Winston-Salem to give a concert July 8th in the community memorial building.

The hostess served a delicious dessert course during the social hour.

## Soil Test Shows Farmer Wasted His Fertilizer

A. J. Womack of Hope Mills, Route 1, in Cumberland County, hopes he has a little more success with his tobacco crop this year after soil tests showed he "wasted" his fertilizer last year.

Negro County Agent B. T. McNeill says that last year Wolmack used 1,800 pounds of 3-8-6 fertilizer per acre on his tobacco. All he got for it was a crop of rough, bony tobacco that wouldn't cure.

This year he had a soil test made. It was recommended that he use 900 pounds of 4-8-10 per acre with 50 pounds of top dressing.

McNeill says that Wolmack's demonstration is looking very good thus far.

He adds that he hopes the demonstration will help convince other farmers of the value of using recommended fertilizers throughout their farming operations.

## HASTE MAKES WASTE

(Contributed)

"Haste makes waste" is a copybook maxim as familiar to most of us as a pair of old shoes. And it's no wonder, for the idea is a very old one in our culture.

The sentiment appears as early as the First Century A. D., in the writing of Plutarch. And the phrase, "Haste maketh waste," apparently had been in the English language a long time, when, in 1546, it was published in a collection of English proverbs and colloquial sayings.

When any folk saying survives through the years as this one has, the reason quite possibly may be that the saying expresses some basic truth.

Certainly we can find plenty of truth in this old, simple phrase when we apply it to our modern, complex traffic picture. For on our streets and highways haste often makes waste.

According to the State Department of Motor Vehicles, nearly four out of ten drivers involved in a fatal auto smash-up in 1954 were violating a speed law—either exceeding stated speed limits or driving too fast for conditions. And this figure, of course, does not include accidents which resulted only in injury or property damage.

So it might be said, in traffic, that speed wastes lives. And that it also wastes work time and health. And it runs up an immense annual bill of damage to property.

Then too, it has been established that fast speeds of motor vehicles take more gasoline and oil, wear out tires faster than would the same distance traveled at slower speeds.

Haste really does make waste in traffic, which is an excellent reason for everyone to support the traffic safety program on speed control, "Slow Down and Live," which is being sponsored statewide by the Governor's Traffic Safety Council.

National symbol of this program is the Hurry Bug, a bee-like creature always in a state of nervous haste. It's a dangerous, and costly, way to live—and drive.

## 'Freeze' Provision Of Social Security

Among the important changes in the Social Security law provided by the recently passed 1954 amendments is the disability "freeze" provision provided in the law. N. A. Avera, District Manager of the District Office of the Social Security Administration, at Wilmington, said today.

A new feature was added to the law by Congress generally to prevent the depreciation of or loss of benefits suffered by wage-earners and self-employed individuals who became totally disabled and thus unable to maintain their regular earnings under the Act. Under the new law if a person became disabled and incapacitated for work there was nothing to be done until he reached age 65 or aged and a claim was filed on his wage record. During the period of his disability, when his earnings decreased or stopped altogether, the wage-earner's average monthly wage decreased, thus lowering his benefit payments or in some cases eliminating them altogether because of lack of insured status. The 1954 amendments to the law do not provide for insurance payments to be made to wage-earners and the self-employed when the disability first occurs, but merely to freeze the wage record at that point upon certain conditions to be met by the disabled person.

Mr. Farmer -  
**CURE-ALLS**  
ARE EARNING LOTS OF \$  
FOR THOUSANDS OF GROWERS BECAUSE

NO OIL VAPORS OR SMOKE ARE RELEASED IN THE BARN TO SMUDGE YOUR TOBACCO. NO TAGS ARE TURNED ON TOBACCO CURED WITH A CURE-ALL.

Cure-All excels because of its giant heavy duty heaters with the 30" diameter outer circulator and aluminum plated steel heat chamber. Its patented Twin Blast Burner is so clean burning, you'll seldom see smoke. So efficient in heat saving, the smoke pipes run cool, needs no screening. You clean it by a twist of the wrist after each cure. Built like a high priced furnace with exclusive giant heat saving air circulating outer drum. No wicks to trim or replace. Heaters built over modern equipment with securely locked edge, bound to give maximum service.

ONLY CURE-ALL HAS A SINGLE CONTROL ASSEMBLY DESIGNED ESPECIALLY FOR A TOBACCO COOKER. Don't be satisfied with make-shift controls that were built for some entirely different heating job. The single CURE-ALL valve operating all four stoves assures you more dependable performance and a much simpler hook-up.

The man who uses CURE-ALLS tell you they use less oil, cost less to maintain and earn you a better price for your leaf. Mr. T. G. McLamb, Benson, North Carolina writes:

"I bought my first set of CURE ALLS back in 1940. I haven't even bought a replacement part for these cookers and they are in perfect condition today! They are light on oil and so simple a school child can operate them. I wouldn't trade this set I have used for 14 years for any other make."
