

Survey indicates that half of all the birds today are under 25. Girls who swear they've never been kissed, can hardly be blamed for peering.

The island of Mauritius in the Indian Ocean was the home of the extinct dodo bird, says the National Geographic Society, Al-

though the island is British, it was named for a Dutch prince. The majority of the people are Hindu and Moslem, but they speak a French patois.

"A smart husband hides his money in clothes that need mending," Charley Jones.

SNUG AND SECURE inside the Army Chemical Corp's model of the "Infant Protector" is six-month-old Chris Schimmel, son of Mr. and Mrs. Clyde B. Schimmel of Battle Creek, Mich. The "Protector," which takes only two minutes to set up or disassemble, folds into a flat package 38 x 34 x 6 inches. The heavy-duty experimental model shown here weighs 18 pounds, but the Chemical Corps, with FDA funds, hopes to design a lighter moderately priced version. (GCA Photo)

Fire Call Instructions**

IMPORTANT: THIS MAY SAVE YOUR LIFE OR YOUR PROPERTY WHEN THE FIREALARM SOUNDS:

- Stay out of the roads and streets.
- Do not walk across intersections.
- Call and watch your children.

WHAT TO DO IF YOU ARE IN YOUR CAR:

- Pull off the road and stop.
- Do not attempt to get to the fire truck.
- Do not start until the fire truck has pulled out and your car is not to go in the direction that the fire truck has gone.
- Under no circumstances should you start until the main fire alarm is silenced.
- Do not attempt to follow the fire truck.
- If you must come to the scene of the fire; park well away and keep a good distance away.

WHY DO WE ASK THIS:

- The fire department is for the protection of your property, already your fire insurance rates have been cut in half.
- This is a voluntary fire department and the members are giving their time—they are organized and trained, when the alarm sounds it is necessary that these members drive as quickly as possible to answer the alarm.
- It is also necessary that some of these members follow the fire truck to the fire in their own car.
- Firemen at a fire need room in which to operate, the fire truck must be close to the fire, hoses must be laid and parked cars and people are a hindrance and a hazard to efficient fighting.

THE BEULAVILLE FIRE DEPARTMENT

school rather than a near integrated one. A White House spokesman angrily protested that the President's grandchildren ought to be left out of dirty politics. That would indeed be a proper thing to do. And yet, one finds it hard to forget that the White House seemed to consider it all right to sacrifice other people's grandchildren on the altar of politics and integration when executive orders were issued requiring integration in the District of Columbia and on military posts throughout the country in an effort to win back the Negro vote from the Northern Democrats.

**Maximum Out-Put
Poultrymen's Aim**

The market egg producer should try to secure maximum production from each bird and it helps if he can achieve peak production during the time when the price of eggs is high, says R. S. Dearstyne of the State College poultry science department.

Getting this high production per bird depends on these inherited factors: early sexual maturity, rate of production, freedom from long pauses in production, lack of broodiness, and persistency of lay in the flock as a whole.

Dearstyne says that assuming inheritance is good, the poultryman still has to maintain good management and keep his flock free of disease or parasites, or else, all of the good inherited factors will go

GETTING UP NIGHTS

If worried by "Bladder Trouble" (Getting Up Nights too frequent, burning or itching urination) or "Hemorrhoids" (Pain due to common Kidney and Bladder Irritations, try CRYSTEX for quick, gratifying, cooling relief. A bottle of CRYSTEX tablets used in past 25 years prove safety and success. Ask druggist for CRYSTEX. Satisfaction or money-back guarantee.

Are All Cold Remedies Alike?

Not For example, 666 is the wide-activity medicine, which combines 4 of the most effective, widely-prescribed drugs known, to relieve all cold miseries sooner. 666 is more potent and gives positive, dramatic, rapid relief from miseries of all kinds of colds. That's why 666 is unsurpassed in effectiveness. Try it.

No other cold remedy can match 666 liquid or 666 Cold Tablets. **666**

**Bought Your Tags?
Deadline Feb. 15th**

RALEIGH—Here it is in spades car owners. Only about one-third of the bulk of 1,600,000 license tags for 1956 have been sold so far with the tail end of the sales period fast approaching.

Deadline for the display of '56 tags is midnight, February 15.

Assistant Motor Vehicles Commissioner Joe Garrett warned owners to expect long waiting lines and delays as deadline time nears. He urged motorists to get their new tags promptly.

Vehicles headquarters reported its sales running pretty much on par with last year. Field offices, where the majority of new tags are distributed, say sales are lagging.

Garrett reminded busy car owners that license plates may be secured by mail. "Simply sign your renewal card, enclose it with a check or money order and address

**What About Is
Mrs. Eisenhower?**

When asked for his reaction to Mrs. Eisenhower's letter to Judy Genier, a white New York girl who attends a Methodist school for Negroes in Asheville, Dr. W. C. George of Chapel Hill, President of Patriots of North Carolina, stated:

"Hardly anyone reading the news story about this letter which Mrs. Eisenhower praised as an unknown adolescent child for 'making the road towards integration a shorter one,' would be so naive as to look upon it as anything other than another blast in the propaganda barrage.

"Just as the people of this country were congratulating themselves upon having a First Lady who tended to the business of being First Lady rather than interfering in matters she did not under, it is regrettable that Mrs. Eisenhower allowed herself to become an instrument of the politicians and propagandists who would force the mixing of white people and Negroes.

"When some Southerner called attention to the fact that President and Mrs. Eisenhower's grand-son attends a private segregated

Don't blow a fuse—

ADD TO YOUR WIRING!

This poor fellow doesn't realize that modern wiring can untangle his sorry situation. He's not alone either. Your home may be among the 4 out of 5 homes today where comfort and convenience are snarled up by out-dated wiring.

Like most modern families, you've added a score or more appliances to serve your electrical way of life. But the wiring in your home has not kept pace. It's overloaded. Such wiring cannot power your appliances properly. It wastes the current you pay for—adds drudging hours to household chores.

Want to banish the strangling entanglements of old wiring—modernize it! You'll hardly notice any interruption of electric service. At no obligation, your electrical contractor (see YELLOW PAGES in phone book), or nearest CP&L office can advise you.

FREE BOOKLET! Planning to buy, build or remodel? "The ABC of Home Wiring" is a handy guide. Supply is limited, so write or call your CP&L office for your copy soon!
