The East Magnolia Home Demonstration Club met in the home of Mrs. W. J. Sanderson Thursday p. m. at 3 o'clock.

The meeting was called to order by the president Mrs. H. T. Brown. The devotional was rendered by the hostess.

Following the devotional the roll was called and minutes read of the last meeting. After a brief business discussion the demonstration was given by Mrs. W. J. Sanderson, the club's food leader. She gave a most interesting demonstration on "Milk in Main Dishes that Satisfy." She stressed the importance of milk in the diet. Milk is our most nearly perfect food. It not only furnishes protein of the highest quality but it is our best source of the mineral, calcium, and the vitamin riboflavin.

It is almost impossible for your body to get the calcium and riboflavin needed daily without milk. Children need it to build strong bones and teeth. Adults need it to keep bones from becoming brittle and easy to break. Riboflavin is called the keep going SHERLU. It promotes good health and helps make you look and act young over a long period of time.

Mrs. Sanderson also prepared a dish using a cheese sauce. The project leaders present gave their reports. The collect was repeated by all.

During the social hour the hostess served refreshments.
