**This check is a double check!**

Federal and state governments are getting stricter every day in demanding proof of every taxpayer's claims for tax deductions on their contributions, medical costs, interest, losses and the like.

A ledger book listing these payments by they are made is good. But your cancelled checks are better.

Our cancelled check book from Branch Banking & Trust Company returns to you at the end of the month is a valuable instrument that offers absolute proof of payment at all times. Often a cancelled check that gathered dust for years has been taken from old files to save the person who wrote it a large sum of money - because it wrote it a large sum of money.

Use your Branch Banking & Trust cancelled check book every day. Keep it in your desk or a branch check book. Because it is a double check.
