Blanchard Recommends ACP Practices Farm Bureau Annual Meeting

In order to give farmers a better picture of what Agricultural Conservation Reserve means, we have decided to use specific farms on which ACP practices are being carried out. This week we have interviewed Mr. Frank Blanchard of Rose Hill, who has planted 12 acres of pines and has done 20 acres of mechanical preparation.

Mr. Blanchard started using ACP practices about three years ago. He feels that these practices have offered him an opportunity to bring poor unproductive land into profitable production. Mr. Blanchard states that it will be a good investment for the future.

Mr. Blanchard said that the ACP Cost-shares he has received has enabled him to carry out practices that would not have been carried out without ACP assistance. He says that ACP is a means for farmers to improve their farms by the use of forestry practices with little cost to themselves. Mr. Blanchard highly recommends all ACP practices to the farmers in Duplin County.

Farmers who wish to carry out forestry practices on their farms should contact the ASC Office. You can receive \$12.00 per acre for setting trees and \$10.00 per acre for mechanical preparation of land for natural seeding or for setting trees. We also have 2 other types of forestry practices which farmers might be interested in, these are hardwood control which is the removal of girdling or poisoning of disease insect infested wolf trees, crooked or hard butted trees and poor species that are interfering with the growth of choice trees. The thinning of stands of trees that are becoming stunted from over crowded conditions. These practices pay \$8.00 per acre.

Blanchard Recommends ACP Practices Farm Bureau Annual Meeting

and Safety Education, Parent and Family Life Education, School Legislation, Increased Membership, and Greater Appreciation for the efforts put forth by the Founders of the National Congress of Parents and Teachers through an Organized Annual Founders Day Celebration.

Having outlined this progressive approach towards greater Lay-Participation in school affairs through training: The various committees held their first Kick-off Buzz Sessions during the regular monthly P. T. A. Meeting, with each group reporting splendid results.

Aside from the progress that is being made to secure greater Lay-Participation in the total school program: It was also reported by H. L. Martin, President, that the County Board of Education had been successful in purchasing the Adjacent Land West of the present school site for future school developments: This report was a welcome sound to the ears of the Parents and Teachers who realize that if any Educational Program is to have its full impact on a community, there must be facilities for physical development as well as mental development: Therefore with the acquisition of additional land, the members of the P. T. A. began to raise their hopes toward a more balanced educational program for the Douglass High School Community.

Sof-twisting is the secret

• MORE FLAVOR • LONGER LASTING FRESHNESS

• FINER TEXTURE

Sof-twist

IS A BETTER BREAD!

- 1 Two pieces of enriched dough are shaped into long soft delicate rolls.
- 2 They're twisted gently, reducing air pockets and giving finer texture.
- 3 Twisted dough is placed in pans for slow rising—tightening the twist. Seals in freshness and flavor.
- 4 Left slice completely seals texture cells. Ordinary slice on right permits drying air to pass through.

Holsum Sof-twist bread
