**"Patience Is The Best Remedy For Any Trouble"**  
(Author's Name Below)  
Every physician needs the patient's cooperation in order to secure the best results. Before he can cure, it is first necessary to find out the cause of the trouble. Physician's have the knowledge and skill to properly diagnose, but sometimes it takes time to accomplish this.  
When you ask your physician for help, do not be impatient if results are not immediate. Sometimes more than one visit is needed. Be sure to take any medicine he may prescribe exactly as he directs. Always follow your physician's directions faithfully, just as we pharmacists do when we compound his prescriptions.

**YOUR PHYSICIAN CAN PHONE 521 WHEN YOU NEED A MEDICINE**

A great many people entrust us with their prescriptions. May we compound yours?

**Oliver Model 40 Self-Propelled**  
Saves More of Every Crop—Grain, Beans, Corn

Here's the way to save money—right through corn harvest. Oliver's low cylinder makes this possible. Feeding is flat, direct. You wade through the heaviest grain stands and tallest weeds without slugging.  
What's more, Oliver's self-propelled corn header is the only one that cuts and handles the entire corn stalk. Gone are the snapping rolls—so are the big shelling losses. You save up to 15% more of your corn crop.  
Come in and see all the other Oliver advantages. You get king-size separating and cleaning areas, with 57-bushel grain tank, grain-saving semi-revolving reel. Other advantages include adjustable tread width, 6-forward-speed tractor transmission, choice of variable-speed belt or straight drive, diesel or gasoline engine.
