George Elwood Morton, Rt. 2, Jacksonville - Shirley Faye Murphy, Hubert; Kenneth Louis Jarman, Rt. 1, Seven Springs - Joyce Helon Maready, Rt. 2, Beulaville; Vernon Lee Sholar, Rt. 1, Chinquapin - Carolyn Faye Sholar, Rt. 2, Wallace; Kenneth Harold Marshburn, Richlands - Dorothy Anne Horne, Rt. 2, Beulaville; Johnnie Ray Kennedy, Rt. 2, Pink Hill - Margaret Kennedy, Rt. 2, Pink Hill; Geron Ryden, Fayetteville - Rachel Holland Davis, RFD, Mt. Olive; James Thomas Johnson, Harrells - Sue Carl Oswald, Wallace; N. Fennell Frederick, Rt. 1, Warsaw - Myrtle Boyette Davis, Rt. 2, Warsaw; Bobby Ronald Pittman, Jacksonville - Betty Rae Quinn, Rt. 2, Mt. Olive; Thomas Jack Williams, Warsaw - Linda Carol Hare, Warsaw; George Bryan Duff, Rt. 1, Holly Ridge - Martha Ellen Hollingsworth, Teachey; Howard Wayne Moats, Kingsport, Tenn. - Mary Ann Sullivan, Rt. 1, Mt. Olive; John Walter Beacham, Falls Church, Va. - Letitia Batts, Chinquapin; Horace Augusta Caison, Warsaw - Linda Alline Boyette, Warsaw; Edgar Harry Hayes, Charlotte - Rebecca Melba Eason, Warsaw; Durand Hershey Sholar, Wallace - Imogene Sholar, Wallace; Earl Thaddeus Pilgrim, Greenville - Doris Jane Caison, Kenansville; Paul Vernon Quinn, Rt. 2, Beulaville - Rachel Elizabeth Tyndall, Rt. 1, Pink Hill; Marion Dean Brown, Chinquapin - Comelia Gurganus, Rt. 1, Richlands; Ralph Leon Seery, Rt. 1, Moyock - Elizabeth Jane Cottle Horton Richardson, Norfolk Va.; William Horace Rackley, Rose Hill - Christine Dail, Rose Hill; Stephen Glenn Mills, Wallace - Janice Faye Cottle, Wallace; Richard Stuart Luther, Rose Hill - Edith Turner Hadnott, Rose Hill; Clifford Ramsey, Warsaw - Annie Laura Southerland Spencer, Rt. 2, Wallace; Elsie Sanders, Jr., Rose Hill - Maybelline Farrior, Rt. 2, Rose Hill; Thomas Odell Hall, Rt. 2, Kenansville - Ruby Jean Glampie, Rt. 1, Kenansville.

QUINN, ALL-STAR FIRST BASEMAN. Terry Quinn, son of Mr. and Mrs. Milford Quinn was named to the All-Star team this past week. Terry will be the regular first baseman when the Warsaw All-Stars travel to Morehead City the week of July 27th. His bat is one big reason the Legion team is now in first place in the Little League standings. Last week Terry went to bat eight times and collected five big hits.

BATTER UP: Little Steve Jones, son of Mr. and Mrs. Toby Jones warms up the Jaycees pitcher. Steve seems to think maybe our pitchers are not ready when they take the hill against opponents. The Jaycees are now in last place in the league.

WARSAW LITTLE LEAGUE ALL-STARS ENTER TOURNAMENT IN MOREHEAD CITY

Warsaw Little League will enter as All Star team in the District Play-offs in Morehead City the week of July 27th. The teams entering the play-offs are: Greenville (two teams), Tarboro, Morehead City, Havelock, Beaufort, Robersonville, Warsaw, Shaw Air Force Base, and Bragg-Pope of Fort Bragg.

The Warsaw All-Stars will leave from the Methodist Church in Warsaw, Monday morning at 4:00 a.m., July 27. Each boy will bring a picnic lunch, all other meals and lodging will be provided by the citizens of the town. Parents wishing to contribute to the expense may do so by contacting Milford Quinn, H. F. Lee, or Bill Sheffield.

On the morning of July 27th the boys will watch a 2:00 p.m. game and a second game at 4:00 p.m. The Warsaw All-Stars have a bye on the first day; and on July 28th at 9:00 a.m. Warsaw will play Havelock, if winner, will play Wednesday at 2:00 p.m. and if winner, will play Thursday at 4:00 p.m. The team will return home on the day of elimination or at close of tournament Thursday. The team will spend the night at Camp Morehead.

After the District Play-offs the winner will move to the State Play-offs in Forest City, North Carolina, then to Divisional Play-offs at Gulf Port, Miss. The winner at Gulf Port will play in the Little League World Series in Williamsport, Pa.

The following Little League teams make up the Warsaw All-Stars: Johnny Carlton, third base, (Rotary); Arthur Minshaw, out fielder, (Rotary); Harold Lewis, infielder, (Jaycees); Donald Knox, first base, (Lions); Donald Bradshaw, Shortstop, (Lions); Louie Ezzell, second base, (Lions); Ronnie Batts, Infielder, (Rotary); Paul Britt, catcher, (Lions); Mickey Walker, pitcher, (Legions); Lynn Hilton, pitcher, (Legions); Terry Quinn, catcher, (Legions); Ray Lane, shortstop, (Legions); Larry Bast, second base, (Legions); and Fred Eason, out fielder, (Rotary).

The team will be under the very capable Coach Ted Wilson of the Rotary and assistant Coach Wilbert Boney of the Legion. All the paper work and other head aches will come under the Tournament Coordinator Allen Draughn, Jr.

LEGION DEFEATS ROTARY, 41-11

The Legion team stopped a late inning rally last week to defeat the first place Rotary 41-11. Lynn Hilton came in, in relief in the sixth with the bases loaded and the winning run at the plate and struck out Ronnie Batts, Fred Eason, and Larry Cooke. The victory moved the Legion into first place for the first time this season with a 10-3 record.

Mickey "spark-plug" Walker, was the winning pitcher and he also had three of the Legions hits. The hero of the game was little Lynn Hilton with the sixth inning pitching performance and with a perfect four-for-four with four RBIs. Also hitting for the first-place Legion team were Frank Ezzell with three-for-four and Terry Quinn with two-for-three.

Larry Cooke, one of the outstanding hurlers in the Little League went down in defeat for the first time this season. Cooke and Johnny Carlton lead the hitting for the Rotary getting three hits each.

LEGION KIPS JAYCEES, 21-5

Larry Hilton, brother of fireball Lynn Hilton of the Legion, set the Jaycees down on just five hits last week as the Legion (continued on back)

From 5 to 15 Percent Using

Use Of MH-30 In Tobacco Sucker Control Much Less Than In 1958

By Paul Barwick

Kenansville — Indications are that from five to 15 per cent of Farmers in the flue cured tobacco belt of North Carolina will use chemicals to control suckers in their tobacco this year.

Suckering has gotten underway in most localities in Eastern North Carolina and the majori-

ty of it is being done by hand. A more thorough check among farmers and merchants who have been supplying MH-30 for sucker control report "sales are down tremendously and judging from farmers' conversation the great majority will not use sucker control."

Duplin is a large farming

community serving farming interests in Lenoir, Duplin, Wayne and Greene Counties. There are six businesses which supply farmers and who distributed a large amount of MH-30 last year. They report that the sales to date are very low — between five and 15 per cent.

Talking with these six suppliers the opinion is that they are not pushing sucker control chemicals this year. "If a farmer wants MH-30 we get it for him," said all of the suppliers, but we are not pushing it as such." Two of the suppliers do not stock the material at all but can secure it

ARGUMENT OVER RIGHT-OF-WAY PUTS ONE IN HOSPITAL, ONE IN JAIL

Daniel James Thompson (c) of Sampson County shot Atlas Goodman, (c) on Thursday night west of Faison in Juniper Town. Goodman is in Duplin General Hospital in Kenansville in critical condition having been shot three times in the chest and two times in the back.

Goodman, who drives a produce truck, was returning home from one of his trips. Thompson was coming out of his driveway. According to reports an argument ensued about the right of way and Thompson got out of his car and shot Goodman while he was still in the truck.

Thompson came into the Sheriff's office and surrendered and is being held in jail. No charges have been made awaiting the outcome of Goodman's condition.

Southeastern Community Development Leaders To Gather At State College

Volunteer leaders and professional workers in the South's growing community development program will attend the eighth annual conference of the Southeastern Community Development Assn. at State College July 15-17.

The three-day event will attract hundreds of delegates from 12 states throughout the South, according to John W. Crawford, program planning specialist for the N. C. Agricultural Extension Service.

Conference headquarters will be at N. C. State College. The college and North Carolina's six area development association will be hosts to the regional meeting.

These are the Asheville Agricultural Development Council, Capital Area Development Assn., Northern Piedmont Area Development Assn.

Attendance is estimated up to 2,000. North Carolina will attempt to have many of its volunteer community development leaders on hand.

Conference theme this year is "Community Development: A Step in Progress for the South."

Neil Bolton of Winston-Salem, SECD president, will open the conference at 10 a. m. Wednesday, July 15. First item on the

agenda will be reports on how the job is done at all levels in each state. In the afternoon delegates will tour N. C. State College, including the atomic reactor, Duke University and a cigarette factory in Durham, and the University of North Carolina in Chapel Hill. At UNC they will witness a special performance at the Morehead Planetarium.

Back on the N. C. State College campus Thursday, the community development leaders will hear an address by David S. Weaver, director of the N. C. Agricultural Extension Service. Special reports from a farm community, a rural non-farm community, a village community and a town community will also be heard.

Archie K. Davis, Wachovia Bank & Trust Co. board chairman, will address the group at Thursday's luncheon.

The afternoon session Thursday will be taken up with workshops.

On Friday, a business session will be held. Also, there will be a luncheon program that can be devised on community, county, area, state, and regional levels.

The conference adjourns after lunch Friday.

Boll Weevil Infestation Likely To Be On Increase Following Extensive Rains

Since rains have come to this area, it is likely that boll weevil activity will increase, according to County Farm Agent Joe Koonce, Jr. Each cotton grower is urged to check his fields and promptly treat each field as the population of boll weevils nears or rises above the 10 percent figure. Indications are that there will be a wide variation in the weevil population from field to field and county to county. Therefore, it is important that each grower "stay up" on the situation in each field. Treatments should begin promptly as the percentage of square infestation approaches percent and should be applied at five day intervals.

Red spider, or mite, populations seem to be on the increase and treatments may be needed in some fields. If mites or red spiders are causing defoliation of entire plants or stunting terminal growth in one or more spots in the field, it will no doubt pay to treat the whole field. Trithion is available in most of the cotton counties. A single application may be expected to clean

up an infestation and give protection for 4 to 6 weeks. Ethion is also available in some areas. Demeton (Systox), a systemic action material is used only for spraying, may be secured generally in most areas. A single application can be expected to give protection for 6 to 10 weeks.

At this time a few boll worms are appearing, but there is no indication of a serious threat now. Growers using toxaphene or endrin on a five day schedule do not need to use DDT but it should be used with the other insecticides recommended for boll weevils in order to keep boll worms under control.

More interest has been shown in cotton this year. An increased acreage was planted and generally more fertilizer has been used; but now is a critical time so far as producing high cotton yields is concerned. This is the period of heaviest fruiting and when 75 to 90 percent of the crop is set. Since the rains have improved the outlook for the crop, let's "keep ahead" of the cotton insect problem.

Swinson Kills Boykin Gives Officers Chase

Cleveland Swinson, 29 year old negro, shot Willie Boykin, 36 year old colored man, through the heart at Ernest Perry's (c) store about one mile North-East of Warsaw on Saturday night at about 11:30 o'clock.

David Swinson, a brother of Cleveland Swinson, was at Perry's store got in a fight and was cut. According to reports, David went home and got his brother, Cleveland, to come to the store to help him out. Cleveland came with a shotgun and, according to reports, threatened to get the one who cut his brother. Willie Boykin tried to intervene and stop Cleveland, when he did Cleveland shot him through the heart, killing him instantly. The one who did the cutting was never located.

David Swinson was put in jail but Cleveland took off before officers got there and evaded officers until about 4:00 Tuesday afternoon. After many attempts by the Sheriff's office to locate David they received a tip-off as to his whereabouts. They took bloodhounds and

went down to the swamp on a farm near Kenansville and after wading through water up to their necks Bill Quinn was the first to reach Swinson and arrest him. Taking part in the search and arrest were T. E. Revelle, Mr. Grady, a highway guard at the Prison Camp, Patrolman Briley and Stewart, Earl Coombs, Sheriff Miller and Jack Bostic. Swinson had been armed but when arrested he did not have a gun with him but had plenty of shells.

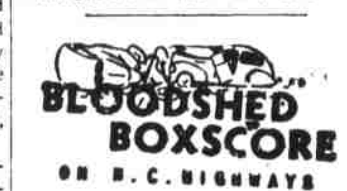

Swinson is in jail without bond, and an inquest will be held on Friday night at the Court house in Kenansville.

Oak Plain Church 100th Anniversary

1859 - 1959

Oak Plain Presbyterian Church will celebrate the one-hundredth anniversary, Sunday July the nineteenth at eleven o'clock. All friends and former members are requested to attend this celebration with us.

The Rev. S. G. Harnes will deliver the message at eleven o'clock. The group will have lunch and enjoy the social hour with old friends, and new ones.

Raleigh — The Motor Vehicles Department's summary of traffic deaths through 10:00 a.m. Monday, July 13:

Killed To Date: 575

Killed to date last year: 475

Korean GI's Still Can Attend College This Fall; Plans To Be Completed Now

It is not too early for veterans planning to attend schools and colleges under the Korean GI Bill this coming fall to start laying plans and making arrangements, VA said.

The agency predicted that veterans' enrollments in schools and colleges in the fall will approximate half a million.

Since veterans are allowed only one change of course during their GI training, it is necessary to give careful thought to selection of their educational goal and the training program which will lead to it.

To assist them in this choice, veterans may request vocational counseling from VA. This procedure requires some time for scheduling, performing the actual tests and analyzing results, so veterans who will make use of it were urged by VA to lose no time in making application.

As an early step in their preparations for GI training, the veterans have to make necessary arrangements for admission to the school they plan to attend — after assuring themselves that the course they want to take has been approved for GI training by the State in which the school is located.

Veterans Administration regional offices have the needed information on approval of courses for training and applications for training are to be sent to the regional office serving his area by the veteran after he has completed it. Any VA office can supply needed information and help, together with the forms for making application.

VA said one in every seven males on college campuses during the past spring term was a veteran attending under the Korean GI Bill — or a total of nearly 700,000. The program will come to an end on January 31, 1965.
