Raising Meat - Type Hogs Means More Farm Income; Housewife Wants Less Fat

marketed.

Every North Carolina | farmer | feed at 2,7 cents a pound) knows that housewives (who spend the money) are demanding more meat and less fat for their pork dollars. But many of these same farmers think raising meattype hogs is too expansive.

About the only extra expense involved, according to Jack Kelley, a young meat-in charge of animal husbandry for salvage value. the N. C. Agricultural Extension

Service, is the cost of the boar. And the farmer can even get this back through feed savings and better prices received from companies ho huy on a value basis.

Suppose the meat-type boar \$100 more than the usual type, says Kelley and that you use this bear on 20 saws twice a year. If losses average one pig for each eight-pig litter you would martet 380 pigs. This way the meat-type boar cost only 36 cents more cation, stating:

"This is to inform you that your home project 'A Family's Shedule' was of such fine callr each hog... What de you get back? If a 200and meat-type hog baings 50 her of work that we have sub-ats per hundred above what the mitted it to the U. S. Office of ter calls a base price, you make stra dollar.
