WHISKEY STILL FOUND AND DESTROYED - Pictured above at left are Duplin County Deputies Bill Quinn and Norwood Boone preparing to work with dynamite on the 150 gal. submarine type still, found approximately 2 miles east of Register Cross Roads. Picture on right shows kettle of still after a charge of dynamite had been dropped into the copper bottom kettle. Two more charges of dynamite finished up the job, destroying five barrels of mash found near by. Finding Whiskey Stills does not always happen at convenient times as Deputies Quinn and Boone can vouch for. This one was found about noon time last Thursday (Feb. 13) catching the deputies with no dynamite on hand to do the job. While Deputy Boone was en route to Kenansville

to obtain dynamite a sudden down pour of rain soaked Deputy Quinn who was left behind to guard the still. Returning to the scene of the still, Deputy Boone found Deputy Quinn under the protective covering of a clump of bushes, wet and shivering. While the two prepared the dynamite another downpour came adding more misery to the Deputies plight (also the photographer's). The first charge of dynamite failed to explode leaving the Deputies to wait in the rain until it was safe to return to the still and set another charge. The second charge went off result; blown-up still and two wet and cold Deputies.

James Kenan Plays Beulaville Friday Night For Duplin County Champions In Boys Division: Grady Girls Take On Beulaville Girls For Championship

The Duplin County Basketball Tournament got underway this past Monday night with the game between the Lassies of James Kenan and the Lady Rebels of North Duplin High.

The winless girls of Coach Bill Helton made a real game of it until the third quarter. The Lady Tigers lead at the end of the first quarter 9-6 and came off the floor at the half leading 19-14. I might add here this is the first game the James Kenan girls have led at the half this season. In the third period the Rebels outscored James Kenan 18-7 and went on from there to win 32-45 before a large crowd at the huge Kenan Gymnasium.

Barbara Walker, the Rebels leading scorer all season with a 25.6 average led the scoring for the evening with 31 points. Rounding out the scoring for North Duplin were Jo Ann Cole with 16 points and Billie Sue McCullen 5.

For the Tiger girls it was all tied up between the three starting forwards; Jean Chambers with 15, Sylvia Brown 15, and Arwiler Jones with 15.

In the opening round in the boys brackets North Duplin edged the Indians of Chiquapien 46-40 before a fairly good crowd. The Rebels of Coach Richard Kalef stepped to a 5-1 lead in the beginning but the fighting Indians came back to within two points at the quarter. In the second with the Rebels leading 9-7, Coach Jack Carr's Indians put out a fine piece of shooting and outscored the Kallelmen 12-9, but the

big green led at the half 19-18. In the third, North Duplin picked up to go out front 31-19, 27-25, and added 19 points in the final quarter to win 46-19. Lattie MacLeish, Pele Warren led the scoring for the Rebels with 22 points. Dave McZinga, the Rebels' rebounding star was second with 11. C. Henderson playing in the shadow of Carlton Haynor led the Indians with 14 points. Others scoring for the Car-men were Raynor with 8, David Wood 8, and Robert James with 7.

The game played on the first night went just about as expected but no one expected the James Kenan girls to put up as good a fight, that is out side of Coach Helton has been saying for sometime now that his girls have really improved and should need reckoning with come next season.

I must say to not have won going into the tournament and fighting with the spirit of an all winning team — if that's not enough I think they should be up for some kind of trophy. But then to look at that fine girls team from Chiquapien and the good sportsmanship they showed. And the boys and girls from North Duplin are always very nice and clean spirited — say did or have you noticed the suits and ties on all North Duplin players, scorers, and managers — very fine impression Coach.

Well so much for that first night of the tournament. Tuesday night the second place B. F. Grady girls had little trouble with the Lady Indians from Chiquapien as they won 51-32. In the first quarter Grady took a six point lead 13-7, an increased the lead to 30-17 at the half. The Lady Indians rallied in the fourth but fell way short to fall on the

consolation side of the tourney. Judy Patton led the Grady girls with 29 points, while Ann Marie Wooten accounted for 15 and 12. Coach Larry Stewart's girls were Alice Faye Smith with 16 points, Faye Harper had 12 and 11. South ended the scoring with 14 for the Indians. Lana Pollock, Coach Jappon leading scorer had 12, and Joyce James 4.

In the boys game, a repeat of last year, the James Kenan Tigers defeated the B. F. Grady Panthers 42-37 in a very exciting game. Coach Stewart and his boys would have rather won this game than the consolation.

don't you remember last year Grady the consolation game came into the tournament final, on a 14 straight woman streak, only to have James Kenan win an all season drop from in the early rounds. The game was ripp and tuck all the way with the Tigers leading most of the way for the Indians. Lana Pollock, Coach Jappon leading scorer had 12, and Joyce James 4.

Albertson Men Organize Club

The rural community of Albertson has organized a Business Men's Club headed by Rudolph Simmons as president, C. S. Thompson, vice president and Thurman Stroud, secretary and treasurer. The purpose of the club is to promote community development and to help the community to attract a small industry in order to supplement farm income. Albertson, a rich farming area, is a wide-awake community preparing itself for the future.

Invited to speak to the businessmen and farmers of the community on Wednesday evening was Charles McCullers of the Kinston Chamber of Commerce. McCullers gave the group an inspirational talk on organization and pooling resources. He pointed out that first they must make their community a better place in which to live. Each citizen must give of his time, talents and money, working together for the good of the people. He stated "First thing to do is clean up the community, and take care of what you have. Make a survey of resources and see what needs to be done. Second, find out what would suit this particular community so far as climate, soil, etc., make a labor survey of what residents can do and how much labor is available" He ended his talk by telling the group that achievement is brought about by "Fellowship, acquaintanceship and brotherly love"

The new club discussed various projects that might be developed and then adjourned. The board of Directors of the group are: M. B. Holt, Paul Lee, Johnny Harper, Lattie Rouse and Coy Smith.

Contracts Awarded For Appraisal Of Property

Last Monday the Board of County Commissioners awarded Contract for the appraisal of property in the County to the low bidder, Southern Appraisal Company of Greensboro. The Board had investigated the work of this company and found that its work had been satisfactory in other counties.

The Appraisal Company will begin work within a few days preparing Assessor's Manual and cost schedules. The Manual will contain detailed data, such as information from realtors, lending institutions, revenue stamps, etc., to be used in preparing the units of land value. It will also contain a breakdown in detail of all data used in making up all schedules, cost, etc., including prevailing wage rates and prevailing material cost, the sources of this information, and analyzed cost of residential, farm, industrial, and commercial building construction. A careful investigation of local

current construction costs will be made. Prices of materials in various quantities and qualities will be obtained from local material dealers. Current wage scales for various types of building construction shall be carefully investigated. Labor efficiency for the several trades and on the various classes of work shall be considered in the determination of building schedules.

From the foregoing information unit construction costs will be analyzed for all materials and fixed equipment entering into the construction of all types of buildings, which construction costs shall include architects and engineers fees, together with contractors overhead and profit and shall reflect the average cost of materials in place for houses of cheap construction, houses of ordinary construction and houses of high quality construction. Separate unit costs will be developed in the same manner for all types of commercial, industrial, farm and special purpose buildings.

After such costs are developed, they will be applied to new construction of known costs to prove their accuracy. When such accuracy is determined or proved in a manner

acceptable to the county, all building costs except those of industrial buildings shall be indicated in square foot units. Tables will show additions or deductions from base prices shown in each residence schedule. Every (Continued on back)
