Child Killed In Bike Accident

Duplin County suffered its 6th highway fatality Tuesday when William Ernest Hunt, age 11, of 411 Boney St., Wallace, was killed when the bicycle he was riding collided with a State owned dump truck on

highway 117 in Magnolia. Hunt, son of Mrs. Stewart Clare and the late John Hunt, who was visiting with his Aunt, Miss Helen Hunt, in Wallace, was spending the day with his Grandmother, Mrs. Laney Heath in Magnolia when the accident occurred.

The youth, riding his bicycle on the sidewalk of E. Carrol St. started across highway 117 into the path of an oncoming truck. The 1959 Ford dump truck, driven by LeRoy Hall, age 56 of Magnolia swerved to the left to avoid hitting Hunt head-on but the rear side of the truck struck the youth knocking him approxima-

tely 15 ft. The driver was absolved of any blame.

Hunt was treated at the scene of the accident by Dr. C. F. Tawes of Rose Hill and rushed to the Duplin General Hospital in Kenansville, where he died from severe head injury at approximately 12:49 P. M.

The accident occurred at approximately 9:30 a. m.

Funeral services were conducted Thursday at 11 a. m. at Wallace Methodist Church by the Rev. Thomas Smythe, rector of the Episcopal Church of Rocky Mount. Burial was in Elmwood cemetery in the Hunt family plot in Oxford at 4 p. m.

CAR-TRUCK COLLIDE AT MAGNOLIA FOUR INJURED IN ACCIDENT

A four-door '52 Chevrolet and a 1957 two-ton GMC truck collided in Magnolia at the intersection of highway 117 and the Magnolia-Kenansville Road on Monday night at about 7:00.

Mrs. Joyce Morton Tate of Elizabeth City, driver of the car, ran through a stop sign, according to witnesses and the truck, which was travelling South struck the right hand side of Mrs. Tate's car, knocking it for sixty-three feet into a sign post across the road. Riding in the car with Mrs. Tate was her daughter Jacqueline, age 7, who was thrown out of the car on the highway and was brought to Duplin General Hospital with a broken hip. Her young son, H. A. Tate III, 2 1/2 years of age received a concussion. He

was brought to Duplin General Hospital. Both children have been moved to University Hospital at Chapel Hill. Mrs. Tate was treated at the hospital but her injuries were not serious.

The driver of the truck was Burk Stamey, white male, age 42, of Rt. 2, Bakersville, N. C. Stamey was admitted to the hospital with back injuries.

The Chevrolet car was completely demolished and about \$700 damage was done to the truck. Mrs. Tate was charged with failing to yield right-of-way. The Tate's were on their way from Elizabeth City to visit relatives in Rose Hill.

Patrolman G. R. Stewart investigated the accident.

Platform Of David N. Henderson

AGRICULTURE:

The tobacco program must be preserved. It must be defended against those who would, through taxes or otherwise, destroy the crop that is most vital to the economy of the Third District and the South. Any additional taxes put on tobacco would be that much more money taken out of the farmers' pockets.

Each year close watch must be kept over agricultural and conservation and similar programs to protect them and improve them wherever possible.

Our program relating to other crops must be protected and in some instances improved, at the earliest possible date. Our farmers, our ginners and our warehousemen are particularly concerned over the loss of cotton acreage to other states.

We need to incorporate in our research and development program a broader study of marketing of farm products, including livestock, to improve the position of the farmer and to protect him against the squeeze of glutted markets.

RIVERS, HARBORS AND TRANSPORTATION:

I would oppose taxes on the tractors and other equipment of our farmers.

I shall make every effort to get all the shipwrecks on our coast marked with buoys in order to save thousands of dollars in damage to fishing equipment each year. These buoys also will mark the finest sport fishing spots off our coast.

In the Third Congressional District we have the most natural and strategically located harbor at Morehead City. Its development must not be subordinated to any other port. The channel must be maintained at a depth to accommodate deep draft vessels of all sizes. This is important not only to the port city but to the entire district. We know that if we can get the ships, the cargoes will come. More cargo means more demand for warehouse space, more rail and truck traffic and more jobs all up and down the line. Not to be overlooked is the influence this could have on port-generated industry that could affect all Eastern North Carolina.

VETERANS:

Stream clearance, with its allied benefits to mosquito control, flood prevention, agriculture, water conservation and industry, is and must continue to be an important part of the program of work for this district.

As a four-year veteran of World War II, I have found myself consistently in favor of those programs advocated by the veterans organizations which benefit the men and women who served their country. We must be particularly concerned with providing better and more available hospital care for veterans and to protect the living standards of the families of the men who did not come back from the wars.

SOCIAL SECURITY:

The Social Security Program is one of the finest ever instituted by our federal government and it must be maintained on a sound fiscal basis. Improvements should be made whenever possible without jeopardizing the stability of the program. The retired worker and the aged who have paid into this program for many years are entitled to the benefits held out to them while they were working. This is a refuge of security which must be maintained for our older citizens.

INDUSTRY:

I am firmly of the opinion that new industry is essential to improve the economic balance of our District. I shall avail myself of every opportunity to encourage it, believing it would be to the best interest of our wage earners as well as provide additional markets for our products of agriculture and the sea.

We must recognize the importance of a friendly atmosphere conducive to keeping the industry we have and encouraging others to come.

EDUCATION:

In this modern scientific era, new approaches must be made in the field of education. We must provide

(continued on back)

Henderson Opens Headquarters In Wayne Tuesday

David N. Henderson opened his second primary headquarters in Wayne County with a rousing celebration on Tuesday night.

About 300 cheering supporters from Wayne and Duplin counties were out for the rally, described by older citizens as the biggest and most enthusiastic they have ever seen at Goldsboro.

At the rally to "meet Dave Henderson" there was band music and quartet singing. It was a wonderful and grand expression of the people of Wayne County who are vitally interested in the Henderson for Congress campaign.

Campaign managers for Henderson in Wayne County are Howell Bland and John Dortch Lewis.

In a press conference just before the rally, Henderson discussed his platform which appears in this paper.

CAR FOUND WIRED WITH DYNAMITE

Willie Williams, colored man, age 36 of RFD Magnolia narrowly escaped possible death Wednesday afternoon when his car failed to start.

Williams found that his car had been wired with two sticks of dynamite under the floorboard.

Williams said that his car, a 1950 Ford Station wagon, had been parked in his yard for sometime with transmission trouble and that he would go out and crank it every day or so to keep to batteries charged. Late Wednesday afternoon when the car failed to start he raised the hood to find the trouble and found some

wires attached to the generator. Williams traced the wires and found them attached to two sticks of dynamite under the floorboard. He immediately notified the Duplin County Sheriff's Dept.

Deputy Sheriff Elwood Revelle went out to investigate and disconnected the wires and removed the dynamite and the blasting caps which had been inserted into the dynamite. Deputy Revelle said that possibly a loose connection kept the dynamite from going off.

There are no clues as yet as to who rigged Williams' car. The case is still under investigation.

Williams is married and has two children.

Notes From Home Agents Office

The Home Demonstration Club members have an interesting and busy summer planned for them.

THE STATE MUSIC WORKSHOP will be held at Woman's College in Greensboro, July 5-8. This is a work shop for music leaders.

FARM HOME WEEK will be held in Raleigh July 11-15. During this week a Talent Show will be held, also a hat parade. Also Meredith College will have open house on Tuesday afternoon in the new Home Management house.

COUNTY COUNCIL meets June 30 in the Agricultural Building.

TRAINING SCHOOL for the July and September meetings will be held June 21, at 10:00 A. M. in the Agricultural Building.

Liquor Still Is Destroyed Near Kenansville Mon.

Duplin County Sheriff's officers destroyed a 150 gallon liquor still, in Kenansville Township, Monday afternoon.

Sheriff Ralph Miller said six barrels mash along with two cooper condensers were destroyed with other still equipment.

On the raid were: Sheriff Miller, Deputies T. E. Revelle, W. O. Houston and Mrs. W. O. Houston.

Warsaw

LITTLE LEAGUE GAMES

By Joe Costin

GAMES THIS WEEK

Sat 11: Lions Vs Rotary at 2:00
Legions Vs Jaycees at 4:15
Wed. 15: Jaycees Vs Lions at 2:00
Rotary Vs Legions at 4:15

STANDINGS OF JUNE 11th

Rotary	2 0
Legions	1 1
Lions	1 1
Jaycees	0 2

The Warsaw Little League Baseball season got underway last Saturday with the Lions defeating the Jaycees 7-0, and the Rotary edging the Legion 5-4 in extra innings. The first game was scheduled at 2: p. m. and the second at 4:15. All games will start as mentioned and will be played on the Junior High Field.

Little (big) Paul Britt, an all-star catcher last year, turned pitcher and hurled a "one-hitter" at the young and inexperienced Jaycee team. Seaton Matthews, regular second baseman for the Jaycees got the only hit in the third. Matthew's sharp single between second and third came in the top of the third with score 0-0.

Britt, a fine looking prospect for James Kenan in years to come, (he looks good enough to me now) struck out 16 Jaycees and allowed only one walk. He also had a perfect day at the plate with three-for-three and drove in four runs. I might add that Donnie Bradshaw was on the receiving end for Britt and the Lions and did a fine job.

Pat Matthis, a first year man with the Lions played like a veteran down a first base. Pat, a fine little right hander looked real good with the lumber. He collected two hits out of three trips to the plate and believe you me that's hard to beat, Little Ken Minton, a Lion regular also collected two hits for the winners.

As for the Jaycees, you could see a lot of improvement in the club, but I feel like the Jaycees team got the short-end of the stick as per usual. Of course with their very capable leader Manager Allen Draughan, Sr., the club will win some real good games this year.

In the second game played Saturday the Rotary defeated the champs of last year... Legion 5-4 in extra innings. This was without a doubt one of the best games played in the Little League in a long time.

Larry Cooke, an outstanding Little League and a fine pitching prospect for dear ole James Kenan struck out eight and allowed only four hits in the six innings pitched for the Rotary. Ronnie Batts came in relief in the seventh with the Rotary leading 5-4, but virtue of three walks and a hit baseman and struck out the side to win for Manager Ted Wilson.

Mickey Walker, another fine looking pitching prospect allowed only six Rotary hits. Dick Kennedy, a first year man with the Legion hit a triple for the Legions only extra base hit of the day.

Lynn Hilton, the Legion' regular

catcher came in in relief in the seventh and was the losing pitcher. Hilton walked the first two men to face him and then struck out the next two, but the next man walked to load the bases. The next man to face Hilton was hit by the first pitch and forced in the winning run.

In the games played Tuesday of this week ended Wednesday the Rotary sent the weak Jaycee club down to their second straight defeat 11-0 in four innings. The Jaycee club did not even have enough men on hand to start but the managers soon cleared the bench of reserves.

Ronnie Batts, a real team player worked the four innings for the front-running Rotary and allowed only one hit, Tommy Costin got the only Jaycee hit in the second inning. Bobby Gavin and Bobby Sloan, lead the winners with two hit each. Batts also had two hits for a perfect day at the plate.

In the second game Tuesday the Legion team Champions of last season defeated the Lions 6-1, behind the four hit pitching of Mickey Walker. Walker did not walk a man and struck out 13 batters and also helped his cause with two hits. Ken Minton, the losing pitcher had two of his team hits.

Wheat Vote Is Set For Farmers In N. C. July 21

The main issue at stake in the referendum of wheat farmers scheduled for July 21 will be the parity level at which the crop will be supported for marketing to consumers.

A favorable vote will set the support rate at 75 percent of parity on the 1961 crop while an unfavorable vote will drop support on wheat to 50 percent of parity.

In order for a favorable vote to be registered, at least two-thirds of those voting on July 21 must give a positive vote.

The wheat allotment for North Carolina for 1961 is 292,908 acres. This compares with North Carolina's wheat allotment for 1960 of 295,879 acres and is based on a National allotment of 55 million acres. The same 55 million acres allotment prevailed in 1960 since that is the minimum fixed by law.

In addition to the level of support, growers will be making a choice for or against marketing quotas and over-planting penalties. It should be pointed out that acreage allotments will remain in effect regardless of the outcome of the referendum, and planting within these allotments will still be a requirement for eligibility under the price support program and the Soil Bank Program.

Vegetable Marketing Coop Is Organized For Duplin - Sampson

Vegetable producers in Duplin, Sampson and parts of Pender County have organized themselves in an effort to secure more stable prices for their produce.

The N. C. Coastal Growers Cooperative, Inc. has been organized with approximately 125 farmers participating in the organization as charter members.

Tom Newman, of Clinton, is president of the Cooperative. Serving with him are: R. D. Harper, of Albemarle, vice-president; and A. B.

Johnson, of Harrells, secretary and treasurer.

This year, the participating farmers plan to market their cucumbers and peppers through C. F. Smith, of Fort Myers, Fla. The watermelons produced will be handled by Growers' Marketing Service, of Leesburg, Fla.

All farmers participating in the

program agree to market their cucumbers, peppers and watermelons through the new Cooperative. By so doing, the marketing sources can assure purchasers and various retail outlets of not only quantity but quality.

Farmers are of the opinion that through this N. C. Coastal Growers Cooperative they will receive a higher average price for their produce and at the same time be assured of a marketing source.

The reason farmers felt the need for organizing for a ready market is when the peak season of any vegetable came in, prices on the produce auction markets dropped sharply. There have been times when farmers could not, or would not, because of the low prices, sell their produce. It was allowed to stay in the fields because harvesting would only mean additional expense.

Often this meant the farmer went into debt in order to sell the produce.

Purpose of the new Cooperative organization is to eliminate this from the production and marketing picture. The firm handling the vegetables will know in advance that quality vegetables are being produced and what quantity to expect from day to day.

News From Pvt. Earl Stroud

Army Pvt. Earl F. Stroud, 21, son of Mr. and Mrs. Walter J. Stroud Route 1, Kenansville, N. C., completed eight weeks of advanced individual training May 27 with the 2d Armored Division at Fort Hood, Texas.

He entered the Army last September and completed basic training at the fort.

Stroud is a 1958 graduate of James Kenan High School, Warsaw. Before entering the Army, he was employed by The Duplin Times, Kenansville.

BLOODSHED BOXSCORE

ON N. C. HIGHWAYS

RALEIGH - The Motor Vehicles Department's summary of traffic deaths through 10 a. m. Monday, June 1960:

Killed To Date..... 423
Killed To Date Last Year..... 479

BRIEFS

4-H COUNTY COUNCIL

The 4-H County Council will meet Monday, June 13, in the Agricultural Building at 8:00 P. M. Please note this is one week later than the usual time because of conflict with 4-H Camp. Attend if possible so plans can be made for demonstration day and Club Week.

ATTENDING CONVENTION

Mrs. Christine W. Winlanns, Duplin County Register of Deeds, is attending the Annual Convention of Registers of Deeds at the Institute of Government Building in Chapel Hill. The meeting is held on Thursday, Friday and Saturday of this week.

X-RAY CLINIC

There will be no X-Ray clinic at Duplin County Health Department on Wednesday, June 22, 1960. Dr. John F. Powers, County Health Officer, made this announcement today.

Wheat Buyers Meet June 13

There will be a meeting for all wheat buyers Monday, June 13, 1960 at two o'clock P. M. in the Duplin County ASC Office in Kenansville.

The purposes of this meeting are:

- To furnish copies of regulations and forms, and
- To explain the regulations and records which must be kept by a wheat buyer.

Every person in Duplin County who plans to buy wheat during this season should have a representative present who will keep these records.

Hail Does Extensive Damage In Duplin County; Farmers To Let Sucker Grow

Hail struck in Duplin County earlier this week, completely wiping out some tobacco plants in some sections.

Vernon H. Reynolds, Duplin Farm Agent, said hail destroyed some fields of tobacco, breaking off the plants at the ground, between Kenansville and Chinquapin Monday afternoon.

The same storm hit in the Hallville-Chinquapin section, damaging some fields as much as 95 per cent.

The first hail to fall in the County of any consequence was on Monday, May 30. It first struck on the Samp-

son - Duplin line between Warsaw and Delway and cut a path across the County to the Summerlin's Cross Roads community. Average damage was estimated in this hail storm as 15 per cent.

In those sections where damage was extensive, Reynolds says farmers are planning to allow a sucker to grow out in hopes of producing as much of a crop this year as possible.

Hail also struck in the LaGrange section Monday afternoon but damage was light, estimated at around five per cent loss.

Cliffs Of Neuse Attendance Given

Attendance at Cliffs of the Neuse State Park for the first week of the summer season totaled 4,213, according to Park Superintendent Bruce Price.

Attendance on Sunday, June 5, was 2,785.

Swimmers totaled 647 for the week.

Beauty Only Skin Deep Where Cars Concerned; Check Safety Features

We'll say it again: the United States is a "nation on wheels."

Talk to an average American, an average Far East, about the benefits of the automobile to his way of life and you get a prompt nod of agreement.

Talk to him about the potential of

the automobile as a lethal weapon when it comes to traffic accidents and deaths. He'll agree here, too. Terrible! Somebody should do something about it!

Charge him personally with responsibility for highway accidents, the way he walks or drives, or the way he keeps a check on the safety feature of his car, and he's likely to let you know in an uncertain terms that's his own business. Besides, "It's always the other fellow who causes accidents."

The fact is keeping a car in safe operating condition is something tangible that can't be left to the "other fellow." Each car owner must recognize and accept a personal responsibility for the condition of his car whether he drives a vehicle of ancient vintage, a shiny late model, or simply looks to the family car for week end jaunts into the countryside.

The basic theme here is expressed by the North Carolina Department of Motor Vehicles. It's "Safe Habits and Safe Vehicles."

Safe habits are important because they help one to do the right thing first and to do the right thing automatically when there's no time to think.

The safe habit of always driving a safe car is important because, when an emergency does arise, your vehicle must respond perfectly and immediately to save your life... or that of another person.

And whether it's safe driving habits or a vehicle in safe operating condition, the determining factor is the human factor. Bad brakes, worn out tires, dim or blind lights, a leaking exhaust system, all can be traced right back to the person who neglected to keep his car in safe operating condition.
