Missionary Speaks **Warsaw Sunday**

Miss Hattie Gardner, Southern Baptist Missionary to Nigeria, will speak at the morning worship service at 11:00 a. m. at the First Bap-tist Church in Warsaw Sunday morning, June 19. Miss Gardner, a native of McBee, South Carolina, is currently on furlough for one year.

Much of the mission work done in Nigeria is at present not pioneer work, for Baptists and other Christian denominations have had work there for many years. However, the work that Miss Gardner does there is of a pioneer nature. Her work includes teaching, preaching, to people who have never even heard the name "Jesus", and counseling in

various capacities. One of her major achievements thus far is the creation of a new language for a tribe that did not have a language of their own. The tribe with which she works is very primitive and has many supersti-tions and odd customs. One of these customs is to destroy their children at 4 p. m. by the Rev. C. G. Dont Outlaw Says Henderson

Congressional Candidate David RICHLANDS Henderson said today that he is Marinda S. Marshburn opposed to outlawing MH-30 by legislation but urged the quick development of substitute chemicals "in the event MH-30 definitely is proven MAGNOLIA to be harmful.

He said official government agencies have not made positive findings regarding MH-30, a chemical that eliminates the need for suckering tobacco by hand.

"If the final report of the Department of Agriculture concludes that the use of MH-30 is harmful to the tobacco program and this position is fully substantiated. I believe the farmers themselves will act in the best interest of our tobacco program." he said.

Until a positive recommendation is made, he said, the farmers should feel free t ocontinue such practices "as they seem best for their own interest.
