

THE '61 PONTIAC IS OUT TODAY!

It's All Pontiac!
on a new Wide-Track!

New track-to-body proportion! The track is the width between the wheels. Pontiac is the only Wide-Track car. Body width is reduced, shaving side overhang, balancing more weight between the wheels. Best relationship of body width to wheel width ever tailored. Lean and sway are ancient history.

Announcing the new Pontiac Trophy V-8 Engine! We've improved the engine the experts said was perfect. New fuel induction system saves gas by using more air in the gasoline mixture. This makes the engine breathe more efficiently, giving you better acceleration. Eleven versions to choose from. Horsepowers range from 215 to 348. For best economy, specify the Trophy Economy V-8. Its lower compression ratio lets you use regular gas.

More headroom, legroom, footroom for greater comfort! You'll take great comfort in the extra roominess we've built into the '61 Pontiac. Seats are higher, yet there's more clearance beneath the steering wheel and more hatroom over your head. There is more legroom, more footroom. Doors are wider and designed to swing open farther. The more highway you put behind you (Pontiac specializes in this) the more you'll appreciate the new room that's all around you in this sleek new '61.

THE ONLY WIDE-TRACK CAR! Body width trimmed to reduce side overhang. More weight balanced between the wheels. No other car hugs the road with such sure-footed stability and precision.

ISN'T THIS YOUR BIG YEAR FOR A WIDE-TRACK PONTIAC? IT'S ALL PONTIAC!

FEM-FEEDING FOR BEEF - During cool months, white face Herefords simply stand in concrete pens and eat to their hearts' content on the 'McNair Farms of Scotland and Robeson County. An exactly-balanced diet is fed "convenience style" in the form of dehydrated pellets (inset) containing pasture-fresh vitamins and other growth elements. Pellets are a product of new-by dehydrator, which serves off-season to dehydrate cattle manure as a home garden fertilizer. Looking on are (left to right) L. L. Biggs, district manager for Carolina Power & Light Company, which supplies power for the operation, and Joe Smith and James Walter of the McNair Farms.

RALEIGH ROUNDUP

BY KIDD BREWER

RECKLESS . . . Headline from Saturday morning's Raleigh News and Observer: "Sanford Calls Gavin Reckless Campaigner." Headline from Sunday morning's Charlotte Observer: "Nixon: Kennedy Reckless."

PREDICTIONS . . . The 17 sports writers visiting the teams which make up the Atlantic Coast Conference predicted in the late summer - just before the season began - that Wake Forest and Carolina would be the top eleven in the group. Carolina lost its first two games to N. C. State and Miami. Wake Forest lost its first two games to Clemson and Florida State.

PERCENTAGE . . . Democrats for weeks now have been blowing their top at Robert Gavin's statement that he would support an increase of 50 per cent in pay for teachers if elected Governor.

A Republican friend of ours remarked recently that "it is almost impossible to outpromise a Democrat - but this is one time where we've certainly done it."

So that as it may, a Democratic politician hereabouts said he doubted that Gavin understands percentages - said it reminded him of the college football star who was having so much trouble with math. Finally, his professor told him he was going to be forced to bust him out of school if he did not do better. He did no better - and was soon out of school for "scholastic difficulties" in the papers put it.

About two years later his mathematics professor was in a nearby town to speak to a civic club. This big baby blue Cadillac whispered up to the curb and out jumped the former football star. Prof looked them over. "Is that yours, Son?" he asked. "Yes, Fessor, I try to get a new one every year. In that way you are not bothered with repairs, and always have a good car."

The old prof was amazed - asked him how he did it. "Well, Fessor," said the old football boy, "I stumbled into this

plastics business. We make a little kitchen appliance . . . Costs us only 25 cents - parts and everything to make it - and then we sell it door-to-door for a dollar. It don't take that three per cent long to add up."

HORRORS! . . . We have it on good authority that the grand-daughter of Gov. Locke Craig (Democratic State Chief Executive from January 15, 1913, to January 11, 1917) is now one of the chief workers in Gavin-for-Governor headquarters in Asheville.

Great day - what are we coming to! NEWS BUREAU . . . S on of a N. C. Baptist minister is Graham A. Martin, who last week was appointed by President Eisenhower as U. S. representative to the United Nations European Office in Geneva, Switzerland.

Martin, 48, will have the rank of ambassador - at a salary of approximately \$25,000 per annum.

At the time he was at Wake Forest - he graduated there in 1932 - he was prominent in publications and assisted Prof. J. L. Manary, Jr., in the News Bureau. His father was pastor of the Denton Baptist Church in Davidson County.

Other sons of Baptist ministers who assisted on the News Bureau and went on to fame: Charlie Trueblood, with AP in Atlanta; Hoke Norris, with Chicago Sun-Times; Lewis Morgan, pastor of Calvary Baptist Church, Washington, D. C.; and Neil Morgan, author of "My San Diego" and on the staff of the San Diego Tribune.

LATE GRASS . . . "Heavy with sleep is the old farmstead, the wind-fall of orchards is mellow; the green of the gum tree is shot with red, the popular is sprinkled with yellow sluggish the snake and leafy the stream; the fieldmouse is fat in his burrow; sun - up sets millions of dewdrops agleam where the late grass is grown in the furrow."

The foregoing is a verse from "Autumn" written by John Charles McNeill of Scotland County some 60

years ago.

REMEMBRANCE . . . Overheard in a N. C. city recently: "Your trouble, man, is you just don't remember the last depression. Southern Dairies was giving away milk - giving it away, I tell you. These pore little children come along with their cans and buckets. They looked pitiful - didn't have on enough clothes to clean a gun barrel."

TRAVELERS . . . While I was at the Raleigh Bus Station last Sunday buying some morning papers, I noticed a whole flock of life ladies, about 10-11 years old milling about buying post cards. It was easy to see-and to hear - they were from up N'oth somewhere. I inquired.

"We are from Rockland, Maine", said one little girl, "and we are on our way to Savannah, Georgia, home of the first Girl Scout troop in America."

VACANCY . . . If the vacancy on the State Supreme Court should come between now and January, it will likely be filled by Malcolm Sealwell, unsuccessful candidate for Governor now practicing law in Raleigh and Chapel Hill. If it should come after that time, don't be surprised if the place is given to Irving Carlyle of Winston-Salem, former State Senator, veteran attorney, and great and good friend of Bert Beattie and Terry Sanford.

Free Ferry Service

Free ferry service between Hatteras and Ocracoke Islands is being gradually restored to normal, according to an announcement today by the State Highway Commission. Until today, the ferry operation had been restricted to two round trips daily because of Hurricane Donna damage but a five round trip per day schedule has now been placed in effect.

Under the new schedule, ferries leave the southern tip of Hatteras Island at 8:00, 7:30 and 10:00 A. M., and at 12:30 and 3:00 P. M. Ferries now leave Ocracoke at 8:45, 8:30 and 11:00 A. M., and at 1:30 and 5:00 P. M.

Highway officials noted that the normal winter schedule of ferry service connecting Hatteras and Ocracoke will be announced shortly and will become effective on October 1.
