With The Duplin Circuit Rider

Good, Better, Best, never let it rest, until your good is better, and your better is your best. Goes a popular little rhyme. Now if man knows as much about getting along with and serving God and fellow man as he does about making eighteen hundred pounds of Tobacco to the acre and was as successful in so doing, Man would really have it made.

America needs to learn to be successful in serving God and man, and Russia needs to see how it is done - Let us both perish.

Church School as usual.

OUR TRIP

On April 4th Mrs. Edna E. Brinson and 42 pupils accompanied by Mr. Lauren Sharpe, Mrs. F. J. Goodman, Mr. D. J. Kilpatrick, Mrs. Amos Chestnut and Mrs. Paul Stephens left school about 9:30 to go on an educational trip. It was an exciting one when a tire blew out about 6 miles from Newton Grove. We were delayed some on that account. We ate lunch at the Kenan Stadium and enjoyed it very much although it was very cool. After lunch we went to Morehead Planetar-

ium and saw "Easter the Awakening."

After visiting the Planetarium we went to the Liggett and Myers cigarette factory at Durham which makes L&M, Chesterfield and Oasis cigarettes. The Duke Chapel and University were our next stop. At the Chapel Mr. Sharpe told us about the Gothic Architecture of the Chapel.

We visited the Raleigh-Durham Airport next and observed planes landing and taking off.

On our way home we stopped at a taste freezery and enjoyed ice cream.

We arrived at the school again at about 8:30 o'clock.
