Crops.

Agricultural prospects in this section of the County at least are very flattering. Everything is growing lustily and will happily disappoint the gloomy indications of the early part of the season. The cornfields look excellently and are expected to yield bountifully.

Exports of New York.

The Journal of Commerce says that from the port of New York the exports of produce continue large for the season, and the total since January 1st now exceed \$50,000,000, a very large gain upon either of the preceding two years.

The expense of maintaining the Army and Navy of France for the current year, is estimated at \$107,400,000.

An Elephant Swimming across the Ohio River.

Dan Rice's elephant, "Lallah Rookh," swam across the Ohio river last Thursday opposite Cincinnati. The Commercial says: -
At times nothing but the end of her trunk would be visible, then the top of her head, and again she would dive entirely out of sight remaining under water until those on shore began to think she was drowned, when of a sudden she would come to the surface with a surge that would throw her huge bulk half out of the water.

The Next Four Years.

In the next four years, if Lincoln and Hamlin are elected, and the South submits, the following new free states will be admitted into the Union: Kansas, Nebraska, Washington, Chippewa, Idaho, Nevada, and Arizona, making a majority of twenty against the Slave States in the Senate.
