THE FLOWERS COLLECTION

# THE DANBURY REPORTER-POST

"NOTHING SUCCEEDS LIKE SUCCESS."

VOLUME XVII

DANBURY, N. C., THURSDAY, SEPTEMBER 13, 1888.

NO. 9

**Summer and Post**  
DANBURY, N. C.

**W. F. CARTER,**  
Attorney at Law

**W. F. CARTER,**  
Attorney at Law

**TAYLOR'S REMEDY**  
SWEET OIL  
AND GULLIN.

**THOMPSON'S**  
COMPOUND  
Tonic Bitter  
A MILD TONIC  
APPETIZER.

**AFLOAT ON A BARREL.**

**THE DIFFERENCE.**

**A MILLION ON A LIFE.**

**NORTH CAROLINA DEMOCRACY.**

**PLATFORM OF PARTY ADOPTED IN STATE CONVENTION AT RALEIGH, MAY, 1888.**

most heavily upon the laborer, it is the duty of the legislator, as a direct benefit to the workingman, to keep the expense of our public institutions at the lowest limit consistent with wise and efficient management. The Democratic party opposes any competition between free and convict labor, but it insists that convicts shall not remain idle at the expense of honest labor.

**PUNGENT SNUFF**  
A WIFE'S REVENGE.

Mary—"George, if I die, promise me one thing."  
George—"What is it, Mary?"  
Mary—"That you will marry Eunice Wilkins."  
George—"Why I thought you hated her, Mary."  
Mary—"I do, George, I want to get even with her."

**PICKINOS**

The wheat crop of Europe is short by 80,000,000 bushels. The United States can furnish a part of this want better price.

**THOMPSON'S**  
COMPOUND  
Tonic Bitter  
A MILD TONIC  
APPETIZER.

The greatest achievement in the history of life insurance has been made by Mr. John Wasmaker, who is now paying premiums on \$1,000,000 to twenty-five different companies. The last policy on his life was received by him the other day, and so far as is known to the world whose life is insured for so an enormous amount. There are a number of men in this city who have been trying for years to achieve the point reached by Mr. Wasmaker, but they have failed, although John B. Weston, the hat manufacturer, has succeeded in getting policies on his life amounting to \$750,000. He is desirous of putting the amount up to a round million.

Resolved, That no government has the right to burden its people with taxes beyond the amount required to pay its necessary expenses and gradually extinguish its public debt, and that whenever the revenues, however derived, exceed this amount, they should be reduced, so as to avoid a surplus in the treasury. That any system of taxation which necessitates the payment of a premium of \$270 by the government on each \$1,000 of bonds, taken up with the millions that would otherwise lie idle in its vaults, and paid to bondholders who purchased in many instances, at less than par, is undemocratic, oppressive and inequitable and should be refunded. The course of our Democratic Representatives in Congress, in their efforts to give relief to the people from burdensome internal revenue and tariff taxation, meets with the approval of the Democratic party of this State and we respectfully recommend that if they find it impossible to give to the people all the relief they demand, they support any just and practical measure presented in Congress that will afford a practical relief from such existing burden.

**WASTE IN CUTTING TIMBER.**

Economy in the cutting of pine trees is a subject which should ever be present with the foreman of a camp, says the *Timberman*. The proper direction in which the tree should fall is a matter of the utmost importance in the making of lumber. Frequently the tree is felled by ignorant sawyers, so as to break its back in a half dozen places, and render it useless for timber. Even what logs are saved from such carelessness are so badly "shaken" as to virtually render them worthless when they reach the mill. The writer knew a foreman who made it a point to fell a dozen of trees at once by cutting each till the point of falling was nearly reached, when the last tree was allowed to fall against the other till all were down. It was certainly, an expeditious method for getting the trees down but played havoc with the timber. However, this is all in passing.

**IT CATCHES THEM.**

Tourist—"Any good hotels here?"  
Hayseed—"Never heard of any!"  
"Any hunting or fishing?"  
"No sirc!"  
"Nice scenery, I suppose?"  
"Naw!"  
"How about mosquitos and malaria?"  
"The woods are full of 'em."  
"How do you live around here?"  
"Same as other folks."  
"Yes! but what industries have you got to support the place?"  
"Summer borders!"  
"For heaven's sake, what brings them here?"  
"Printers ink, mister, printers ink!"  
—The Idea.

The young Democracy had a good time at Morehead in the way of speech making. What was accomplished practically, we have not seen stated. One of the speakers was a young man from New Bern, Mr. Jackson, who was never old enough to have voted in fifty-five consecutive years.

**OAK RIDGE INSTITUTE.**

Dr. V. O. THOMPSON,  
DRUGGIST,  
Winston N. C.

**H. H. CARLAND**  
Merchant Tailor,  
FINE CLOTH  
And Furnishing Goods

**ALCOHOL FOR DIPHTHERIA.**

Alcohol, we make bold to say, is the most perfect and reliable medicine of which we have any knowledge in diphtheria. It is used with equal parts of water and given in small and repeated doses from the malignant symptoms of this most fatal malady soon disappear, and convalescence becomes assured. It is interesting to note with what facility the alcohol dissolves the diphtheritic exudation in the throat, lowers the temperature and calms the pulse, showing its destructive action upon the germs of the disease which have been absorbed by the glands and general system to the blood. This remedy has been used by us in the treatment of diphtheria since 1873, during which time no case of the disease has slipped through our hands except in one solitary instance, and that case was in a young child before the remedy was given. The remedy is also prophylactic to the disease, as we have found in many instances where it has been expedient to quarantine the patient. For this purpose it is only necessary for exposed persons to use the remedy, diluted as above stated, as a gargle, and to swallow a little three or four times a day.

Resolved, That while the details of the methods by which the constitutional revenue tariff shall be gradually reached are subjects which the representatives of our people at the national capital must be treated to adjust, we think the custom duties should be levied for the production of public revenue, and the discriminations in their adjustment should be such as will place the highest rates on luxuries and the lowest on the necessities of life, distribute as equally as possible the unavoidable burdens of taxation, and confer the greatest good on the greatest number.

**WHY SHE KEPT IT.**

Jobson—What kind of an animal is that you've got there, Joseph?  
Joseph—A hedgehog. It is one of my wife's pets.  
Jobson—Strange kind of a pet, I should say. Why does she keep such a thing as that about her?  
Joseph—Well, I suppose it is because he has so many fine points about him.—*Boston Courier*.

**WHY THE MATCH WAS BROKEN OFF.**

Mother—It is hard for a widowed mother to part with her only daughter.  
Suitor—No doubt of it, but she will be well taken care of.  
Mother—You may have her on one condition.  
Suitor—Name it.  
Mother—That I make my home with you.  
Suitor—Live with us all the time?  
Mother—Yes.  
Suitor—(after a little reflection)—All right. It will save us the expense of hiring a servant girl.—*Boston Courier*.

**QUAINT AND CURIOUS.**

There are about 99,000 houses in New York City.

Very few young ladies grow after they are 17.

"Fool's Gold" is bisulphide of iron, commonly known as iron pyrites.

The knitting of lace originated in Germany about the middle of the sixteenth century.

The first sea fight on record was that between the Corinthians and the inhabitants of Coreyra, 664 B. C.

A horseshoe was found imbedded in the heart of a tree three feet in diameter, that was cut down near York Springs Pa., recently.

Calico was prohibited as wearing apparel in England from 1700 to 1785, and its use for any purpose totally prohibited in 1758.

Keep the piano or organ closed when not in use. Not only dust, but moisture, has an unfavorable effect on them, and should always be carefully guarded against.

The latest nugget ever found was called the welcome Nugget, and was found at Ballarat. It weighed 184 pounds and was sold for \$10,000.

For this purpose it is only necessary for exposed persons to use the remedy, diluted as above stated, as a gargle, and to swallow a little three or four times a day.

Resolved, That we, as heretofore, favor, and will never cease to demand, the unconditional abolition of the whole internal revenue system, as a war tax, not to be justified in times of peace, as a grievous burden to our people, and a source of suspicion to the practical operations. We call the attention of the people of the State to the hypocritical promises of the Republican party in their platform that they are in favor of the repeal of the onerous system of taxation, enacted by their party, while the Republicans in Congress are taxing their energies to obstruct all legislation inaugurated by the representatives of the Democratic party to relieve the people of all or a part of this odious system.

**WHY GO OUT OF THE COUNTRY FOR YOUR SUPPLIES WHEN YOU CAN GET THEM OF W. B. VAUGHN,**  
Walnut Cove, N. C.

**MILLINERY STORE.**  
MRS. L. W. MASTEN,  
Main Street, Two Doors Below Allen's Old Stand.

**TO MEASURE AN ACRE.**

To find the required length of a piece of land of any given width so as to form an acre, divide the number of square rods there are in an acre (4,840) by the number of rods in width. If the piece of land is five yards wide, divide the required number of rods, in length to form an acre. So of any given width.

Resolved, That the Democratic party has ever been the party of the workingman, and has never favored monopolies, nor have "trusts" or "combinations" or "pools" ever grown up under laws enacted by it. The contest in this country being between aggregated capital, seeking to crush out all competition, and the individual laborer, the Democratic party is, as it has ever been, against the monopolist and in favor of a just distribution of capital, and demands the enactment of laws that will bear equally upon all.

**WORK ON THE C. F. & Y. V.**

Grading on this end of the Cape Fear and Yadkin Valley Railroad goes steadily on. Mr. W. P. Fortune is progressing finely on his contract, and Mr. L. G. Cherry has gotten down to work in earnest on his section. About five miles of the railway has been graded.—*Wilmington Messenger*.

**HER BROKEN WORD.**

Daughter—Mr. Jones, my fiance will be here tonight, mother.  
Mother—Your fiance? Why, child! I thought you declared you would never, never marry a Frenchman.—*The Idea*.
