### Stamp No. 49 Is Still Good For 5 lbs. Sugar

Spare Stamp No. 39, good for five pounds of sugar and scheduled to expire last Saturday night, continues good throughout September because of the shortage of sugar in some areas due to mal-distribution, OPA District Director Theodore S. Johnson has explained.

At the same time, he announced that Spare Stamp No. 51 became valid last Sunday, also for five pounds, in line with the regular ration pattern followed for the past several months. This stamp continues good for the balance of this year, he said, adding that uncertainty about the extent of the coming Cuban crop makes it impossible to increase the present sugar ration.
