Better Beer Dealers Make A Request

BEER—The Beverage of Moderation

The overwhelming majority of beer retailers in North Carolina want their business operated strictly and totally within the law.

They want this because they are straightforward, law-abiding citizens, and also because they know it is simply good business to keep their places clean and wholesome.

Hence this request: Patronize only respectable dealers. Commend those noticeably careful about the conduct of their establishments.

A reasonable request, we feel, designed to keep a clean business clean.
