### Seven Receive Divorce Decrees Here This Week

Hillsboro—Seven couples received divorce decrees in a civil term of Superior Court in session here this week. Other cases heard during the first three days ended in non-suit or voluntary agreements on the part of the litigants. A suit brought by Ernest Winston against Hazard Motor Co. and Worth D. Kenion ended in non-suit after a long hearing when it appeared the defendants were not the employers of the plaintiff who sought payment of wages for work done on the new Hazzard building in Chapel Hill. A case brought against Roy McAdams by the Administrator of Oscar Adkins, whose killing was charged to McAdams in a recent term of court, was settled by an agreement to pay the widow \$2,000 in cash and notes in satisfaction of the civil complaint. Receiving divorces were Ruth Roberts Justice from Sandy Green Justice, Dennis Boggs from Irene J. Boggs, Hettie R. Taylor from Theodore R. Taylor, Lucille C. Morrow from Herbert Morrow, Fannie Sell McCracken from Glenn McCracken, W. Taylor Bell from Joyce Presson Bell, Nina C. Hinnant from M. M. Hinnant, and John Mason from Pearl McCauley Mason.

The depot, always designated as "Chapel Hill," was changed by the Southern Railway last Monday to "Carrboro," thus removing a proverbial thorn from the side of many Carrboro citizens who have long resented the failure to recognize their town. C. R. Williams, veteran railroad man of Carrboro, said the depot was built here about 1880 and at one time was the largest crosstie market in this part of the country. Although about one mile outside the town limits of Chapel Hill at the time of construction and within the town limits of Carrboro since it was chartered in 1911, the depot has always been "Chapel Hill."

### Raleigh Road Site Has Been Selected By Muirhead For FHA Approved Project

Chapel Hill—Relief for the severe housing shortage suffered in Chapel Hill since the war appeared in sight yesterday with announcement of approval for the construction of a 300-unit apartment project. Arrangements for the project have been made by William Muirhead, Durham contractor, who appeared before the Board of Aldermen Tuesday night in connection with final details. Financing, it is understood, will be through the Federal Housing Administration. Construction is expected to get underway shortly after approval of final details by the government agency, whose specifications regarding occupancy, outside improvements and other factors are required. Site of the project is on the Raleigh Road, Highway 54, approximately three quarters of a mile from the town limits, near the Oakwood development. Located on a beautiful, wooded tract, the project will include a number of two, three and four apartment buildings and the apartments themselves will be a variety of one, two and three bedroom sizes. The buildings will be of English architecture. The project will have some 1,000 feet of front on the highway and will extend about 4,000 feet back, it is understood. In accordance with F. H. A. specifications, paved roads, curb and gutter construction and landscaped lawns will be built throughout the project and the only restrictions on occupancy will be the granting of veterans preference. By unanimous approval of the Board of Aldermen, the Town of Chapel Hill has agreed to furnish sewerage disposal facilities at the rate of \$12 per year per apartment unit and garbage disposal at the rate of \$4 per year per apartment unit. These services are based upon delivery of garbage and sewerage to the disposal units by the contracting agent, Mr. Muirhead, who will be required to build a line from the project to the town's new disposal unit on the Mason Farm, approximately one mile, in the case of sewerage and make deliveries of garbage to the disposal site.

### Issue Warning On Typewriter Repair Racket

Chapel Hill—The Chapel Hill Police Department has been notified that two men posing as typewriter repairmen are expected to pass through Chapel Hill and Durham sometime this week. The Chapel Hill Merchants Association has sent out notices to its members urging them to be on the lookout for the thieves. In the event that they are approached by suspicious persons, businessmen have been asked to notify the Police Department or the Merchants Association. Chief W. T. Sloan pointed out that the typewriter racket is not new to Chapel Hill. Some time ago the Chapel Hill High School temporarily lost five of its machines under the scheme. The typewriters were later recovered in Columbia, South Carolina. At presstime no activity on the part of the crooks had been reported in Orange County.
