"It's not our hat!"

The Southern Railway doesn't pass the hat for your tax dollars.

Other forms of commercial transportation use highways, airports and waterways that are built and maintained with your tax dollars—and ours.

But railroads are strictly on their own. Every penny they spend to build and maintain their own steel "highways" comes right out of the railroads' pockets—not yours.

We're glad we are not in the "hat-passing" class. We prefer to stand on our own financial feet in the old-fashioned American way. And we believe that if there were no hat-passers in the transportation business it would be better for you and for all America.
