

Editorial and Opinion

Should Be Worth It

The Orange County Grand Jury last week called upon the county to increase jury wages from \$4 to \$6 per day with mileage from the juror's place of abode to the county courthouse.

All in all, we'd say this was an entirely modest request. Apparently while everything else has gone up during the fabulous forties, the remuneration for jury duty has remained at pre-war levels and it is entirely likely that many of those serving during the past year have done so at considerable financial sacrifice. Of course there are still several of the so called "professional" jurors always available but by and large the majority of those called for jury duty must forego their own work. This many can ill afford at \$4 per day.

So, while we'd normally feel like resisting most such increases in public expense, the current Grand Jury request appears entirely in order. When it is granted by the Board of Commissioners, then the onus will be on it to earn its pay, the opinion of not a few responsible citizens being that a single buck has often been too much for value received.

What Else Expected

The inept Scott Administration is back in the news again and everywhere most unfavorable.

First, Jeff Wilson, the chief of the Motor Vehicles Safety Bureau, gets caught running from one end of the State to the other, and beyond its bounds, at State expense which enjoying himself immensely as a Big Young Democrat, a big Lion, and most of all a big shot State official.

Then Tony Tolar, the campaign chaffer made colonel, plows through a funeral procession with siren ablaze while playing patrol private and gets himself involved in criminal action in Superior Court down East. The Chief, himself, called it "a fool thing to do."

But topping it all, the Elections Board appointed to let in more air in official posts everywhere decides to overlook a little thing like the State Law and appoint who it pleases in eight counties which did not support the Boss-like they should, thus inaugurating what Lynn Nisbet calls a "new kind of philosophy for North Carolina, a state in which compliance with law rather than personal whims of officials has always been the order." Nisbet continues that the Governor told Britt (Chairman C. M. Britt of Asheville) he was chairman and that apparently gave Britt the idea he could do anything he wanted with the board without regard to the law. Thus, in the final analysis we find a board charged with directing subordinate boards following a policy of arbitrarily ignoring the law whose language was plain enough for any sixth grader to understand.

These instances are not the first and hardly the last which may be expected to crop up from time to time to embarrass North Carolinians outside the realm of the pressure politics which rule the day. Let calm remain the watchword of the hour.

This Type We Need

Governor Kerr Scott sounded off before the teachers in Raleigh a few weeks back, urging them to get busy and elect to the general assembly men who would vote ample funds for the schools. It seems the governor fears a dark conspiracy to scuttle them, which we think is entirely groundless.

Having made this appeal, The Transylvania Times believes, the governor can now consistently address a similar plea to the farmers, the unioners, the merchants, the editors and other workers to send men to Raleigh pledged to look after their interests.

What we should like to hear is a plea by someone in authority that we send to Raleigh able and conscientious men who will look after the interests of North Carolina and every interest and element in it. We don't think the welfare of the schools requires that we send to Raleigh men pledged to grab every nickle they can for them and the idea of electing lawmakers because they favor some special group or interest is one of the most deplorable trends in politics today.

Dig Deep

In the past few years, it seems, the number of charitable organizations have tripled themselves because every time we turn around there is a campaign going on for something or other. However, most of them are worthy causes. And just recently a new one has appeared on the scene—The Easter Seal Campaign of the North Carolina League for Crippled Children.

The League has as its goal to aid every crippled or handicapped child in North Carolina whose family is not able to completely care for him. For this projected aim, the League needs the wholehearted support of every person.

These are your kids or your friend's, kids so come on and dig deep, it won't hurt half as much as you think it will.

PRESS COMMENT

Tolar's Idea Not So 'Hot'

Commander Tony Tolar of the State Highway Patrol has given orders that a huge number one in red paint be placed on the highways of North Carolina at every point where a person is killed as a constant reminder to the public of the fatalities on the highways. If two persons are killed, the numeral will be a two, and if three, a three, and so on.

Commander Tolar hopes in this way to slow the motoring public and check the ever-increasing death toll on the highways. He believes that the psychology of the situation will operate in favor of more care in driving.

Well, we hope Commander Tolar will change his mind before he gets his new plan started. Several years ago it was decided to mark the highways of North Carolina with white crosses at every point where someone was killed. The crosses became numerous, and the public reaction was bad, especially when crosses were placed in front of residences along the highways. The practice was finally discontinued.

We don't believe that the effect will be any different with the red lettering on the highways. Furthermore, large numbers of strangers going through the state who figure a great deal in automobile accidents would have no idea what the red lettering indicated.

By all means have a safety program, but don't mark up the highways with grim reminders—Scotland Neck, Commonwealth.

FARM HOME HINTS

Ironing Musts—Points to remember: When ironing rayon creeps or jerseys always iron with the grain. Iron rayons on the wrong side. Do touch-up jobs on the right side using a pressing cloth over the fabric. If you don't, you will have shine.

Avoid sprinkling—You will have fabrics usually contain acetate better results by ironing pour raps as soon as they have dried to the right degree of dampness rather than waiting until they are bone dry and then sprinkling.

Rayon sharkskin—These crisp fabrics usually contain acetate rayon. For good results iron while noticeably damp. Iron slowly to dry out the fabric as you iron. Watch the temperature of your iron or ironer carefully. Iron with a WARM iron or ironer. (Rayon setting.)

Rayon jersey—Rayon jerseys usually contain acetate rayon, so be very careful that your iron doesn't get too hot. Iron lightly to avoid pulling the garment out of shape. Iron while slightly damp with a WARM iron or ironer.

Rayon satins—Iron heavier rayon satins while noticeable damp. Iron till the fabric is dry. Some rayon satins need a cooler iron or ironer than others—test temperature on a seam.

To prevent ironing from drying out when you don't complete as much as you have sprinkled, I have several suggestions for you. Purchase a plastic pillow cover that will allow ample room for a large family's ironing. You will find that you will use less moisture for your clothes if they are wrapped in plastic and that they will not dry out as much while waiting to be ironed.

When you have a few pieces left over or pieces that are hard to iron, place them in refrigerator. They will not dry out and due to the coldness they will be much easier to iron.

When starch sticks to your iron, you can partially prevent it from sticking by adding Borax to your starch solution—one teaspoon to a quart.

To clean the soleplate of the fine steel wool or whiting. Polish it when thoroughly clean with beeswax. DO NOT use harsh abrasive cleaners.

The Morehead Planetarium at the University of North Carolina is the only one on an American Campus. It draws thousands of visitors.

North Carolina manufactures more wooded furniture than any other state.

Once Over, No Return

Chapel Hill Shut-In Is Responsible For Bunnies Cropping Up Over State

Chapel Hill—Thousands of bunny rabbits will be cropping up all over the State this week and everybody will be able to get one.

Although they won't be of the lettuce-eating variety, since these are actually white felt lapel pins in the shape of rabbits, anyone who contributes to the Easter Seal Campaign of the North Carolina League for Crippled Children will be given one of the colorful buttons. The drive continues through April 9.

Largely responsible for the design of the pins is Miss Nannie Long of Chapel Hill, who has been a shut-in for 30 years. She volunteered in any way she could unteered some time ago to serve and since she has produced hundreds of pins.

The rabbits are stamped in blue, purple and green ink on large sheets of white felt. Then the designs are cut out by volunteer groups in various counties. The Y-Teens, Girl Scouts and high school girls and boys at the Recreation Center in Chapel Hill have also helped in the cutting here. Proceeds from the sale of the pins and the League's Easter Seals are used to help every type of handicapped child in the State who cannot get this help otherwise.

The North Carolina League is introducing "Felt Bunnies" for two purposes: as a new fund-raising device and as a possible item which, if successful in North Carolina, will be proposed to the National Society for Crippled Children and Adults for nation-wide sale in 1951 along with lilies and other objects. The item would

be made by, and sold for, the benefit of handicapped persons in North Carolina.

Design for the bunnies has been described as quite clever and original by League officials, which is not surprising since Miss Long won recognition throughout the State some years ago for her stamp craft. She made pictures by cutting up cancelled postage stamps and pasting them into various designs and patterns. When she isn't working on her current hobby, Miss Long enjoys reading, listening to the radio and superintending the gardening at her home.

Through its program for 1950, the League will seek to improve and expand projects for direct services to handicapped persons for whom there are no other sources. They hope, also, to assist in the development of facilities for persons affected by cerebral palsy, and to cooperate with the State Division of Special Education in connection with the educational program for handicapped children.

The educational program will include scholarships to persons attending universities or colleges in order to encourage them to take certain courses which would prepare them for more efficient service.

If you're watching the weeds grow in the corn when the plowing can't wait—worrying about planting when there's still more plowing and harrowing—or wishing the manure would haul itself when the big tractor's busy... you need another tractor.

With a Farmall Cub, you can plant, cultivate, or mow 12 acres a day... rake at 3 miles an hour... haul faster than a team. And you can spray, pump, run an elevator, plow snow, saw wood, shell corn, grind feed... a hundred other jobs too small for the big tractor.

Come in and see the Farmall Cub. It may be just what you need.

See this Farmall at work on your own farm... the white Farmall with the gold stars. Call us for a demonstration now.

Hadacol Helps Grocer Work Hard, Long Hours

There is plenty of hard work and long hours in the retail grocery business and this is especially true for Paul Earnhardt, 816 South Church St., in Salisbury, N. C. Mr. Earnhardt works long hours at the Earnhardt Super Market in Salisbury, one of the largest and most modern grocery stores in that thriving section of North Carolina.

The grind began to tell on Mr. Earnhardt about three months ago and he wondered for a time whether he would be able to carry on at the same rigid pace. But that was before he heard the blessed news about HADACOL.

"I have been taking HADACOL for three months," said Mr. Earnhardt. "I was weak, run down, nervous, had difficulty sleeping at night, nervous indigestion, gastric distress, aches, headaches, suffered with stomach bloating and gas pains around my heart. After the Mr. Earnhardt third bottle, I started gaining weight, had no gastric disturbances, headaches or gas pains. I never felt better and work long hours. I recommend HADACOL."

Mr. Earnhardt, like so many thousands of other suffering people, had tried many preparations without beneficial results before he heard the wonderful news about HADACOL.

Mr. Earnhardt puts in long, hard hours at the Earnhardt Grocery store now but is again his usual cheerful self and when his friends comment on his improvement he advises them to give HADACOL a trial.

Mr. Earnhardt was suffering from a lack of B Vitamins and the Minerals which HADACOL contains. HADACOL comes to you in liquid form, easily assimilated in the blood stream so that it can go to work right away.

A lack of only a small amount of the B Vitamins and certain Minerals will cause digestive disturbances... Your food will not agree with you... You will suffer from heartburns, gas pains, and your food will sour on your stomach, and you will not be able to eat the things you like for fear of being in misery afterward. Many people also suffer from constipation. And while these symptoms may be the results of other causes, they are surely and certainly the symptoms and signs of the lack of the B Vitamins and Minerals which HADACOL contains. And if you suffer from such a disorder, there is no known cure except the administration of the Vitamins and the Minerals which your system lacks.

HADACOL contains not only one, but 5 of the B Vitamins. HADACOL contains not only one, but 4 of the necessary Minerals. It comes to you in liquid form, easily assimilated in the blood stream so that it can go to work right away.

It is easy to understand, therefore, why countless thousands have been benefited by this amazing tonic, HADACOL. So it matters not how old you are or who you are... if you have tried all the medicines under the sun, give this wonderful preparation, HADACOL, a trial. Don't go on suffering. Don't continue to lead a miserable life. Be fair to yourself. Temporary relief is not enough for you. Give HADACOL a trial. Accept no substitute. Insist on the genuine HADACOL.

Sold at all the leading drug stores. Trial size only \$1.25, but save money—buy the large family and hospital size—only \$3.50.

We are so firm in our belief that HADACOL will help you that we sell HADACOL on a money-back guarantee. If you don't feel perfectly satisfied after using HADACOL as directed, just return the empty carton and your money will be cheerfully refunded. Nothing could be fairer.
