

HOUSE of the WEEK

Every Room Is A Corner Room

Here is a low-cost house of simple construction designed for comfortable living. It is an attractive house, compactly arranged, with pleasing horizontal lines. A large amount of usable wall space in the bedrooms permit desirable furniture arrangement. The two large closets in each bedroom permit desirable furniture arrangement. The two large closets in each bedroom provide storage for clothes, blankets, etc. A linen closet is in the hall, the lower section of which can be used as a dirty clothes hamper.

The kitchen is arranged so that it will be unusually cool. The window by the table makes a cheerful spot for eating, and the windows by the sink and stove provide an abundance of light where it is always needed. The large pantry, a small ventilated pantry, a linen closet and water heater closet provide an abundance of light where it is always needed. The large pantry, a small ventilated pantry, a linen closet and a water heater closet provide an abundance of storage space.

If more work space is needed or a screened porch wanted at some later date, the back door is placed so that this can be easily arranged by using shed roof construction. This will provide a large amount of space very economically and in no way detract

from the appearance of the house or necessitate any alteration in the kitchen.

A centrally located chimney will serve a living room heater and also the stove in the kitchen if a wood or coal kitchen range is used. If you want a fireplace for living room heat, it would be convenient to use the space now shown as a ventilated pantry and that shown as a chimney for storage.

The long front porch is a pleasant place to spend summer after-

noons and evenings. You can obtain blueprints for this NEWS OF ORANGE COUNTY - FARM & RANCH Plan No. 4807 and a handy list of materials by which you can figure your construction cost accurately. Send 1 to Building Editor, FARM & RANCH-SOUTHERN AGRICULTURIST, Dept. H-14, Nashville, Tenn. Order by number - Plan No. 4807. Blueprints are adequate for any farm carpenter or for any farmer handy with tools.

and can be cut and fit with ordinary carpenter's tools. In many cases, however, local lumber and building material dealers maintain trained applicators for installing such an interior.

The horizontal and plain-color patterns are the most popular for smart, modern rooms. Combinations of the two lend a distinctive appearance, and now the new, authentic wood patterns are being used, in conjunction with plain-colors - in a kitchen or bath, for example, where an unusually striking effect is desired. The long-time economy of a room remodeled or installed new with plastic-finished panels lies in the fact that installation is speedy and fast, all redecorating cost is eliminated, and cleaning time and trouble are cut to a minimum.

Recently one manufacturer perfected a line of colored aluminum alloy mouldings which match the colors of their plastic-finished panels. Thus a smooth, overall appearance, or pleasing contrasts, can be achieved, regardless of the colors selected.

Complete details can be obtained from any leading lumber and building material dealer.

Take Care With Attic Rooms

Many young couples who purchased small homes with unfinished second floors and attics—like hundreds of thousands constructed since the war—now are rearing families and must have additional living space. This can be obtained by completing rooms in the unfinished part of the house. But the young home owner, even though burdened with mortgage payments and the expense of raising his family—no small item at today's prices—is cautioned against attempting a make-shift job.

Building contractors point out that rooms completed in the unfinished area of the house become a permanent part of the home. They explain that while undertaking the work as if it were a temporary project may seem to be economically advisable at the moment, it is almost certain to prove costly in the long run.

The dangers of doing work in a haphazard manner are infinitely greater if plumbing is required. Installations should be made in full compliance with municipal codes, using only materials of good quality.

VARNISH WINDOW SCREENS
Iron-wire window screening is not rust-proof even when galvanized, and should be protected with varnish or screen enamel.

Plastic-Finished Wall Panels Combine Beauty With Economy In New Or Old

Beautiful yet economical plastic-finished wall panels are being chosen today by many budgetwise homeowners who want durable, beautiful walls that are easy to clean.

A kitchen or bathroom, for instance, remodeled or built into a new home with these bright, cheerful, permanent plastic-finished panels offers a distinctive interior that will always be charming and inviting.

In addition - and this is mighty important to any housewife - the smooth panels make housekeeping easier, seal out all dirt, grease, cooking odors, moisture and smudges. All one need do to keep them sparkling bright and clean is to wipe the walls or ceiling occasionally with a damp cloth. For the durable plastic finish of

these panels, unlike ordinary wall coverings, is not harmed by grease or dirt; neither is it damaged by common household stains. Moreover, the finish never requires periodic painting or redecorating.

Available in a wide range of smart decorated colors and patterns, plastic-finished panels minimize housework in kitchens, bathrooms, laundry rooms, utility and playrooms, dens, powder rooms and other areas. Panel styles include plain color, horizontal, tile, wood and marble patterns - providing any number of decorative themes which bring a note of individuality to the home.

Installation of the panels is fairly quick and simple. Available in easy-to-handle units ranging from 4' x 4' up to 4' x 12', they go right up over old walls or new,

WASH IT! SCRUB IT! You can't mar its Matchless Beauty!
Super Kem-Tone Deluxe Wall Paint
A Completely NEW ... Completely DIFFERENT Wall Paint!
Gorgeous NEW colors lovely pastels rich, deep tones
READY to use ... and so easy to use!
You never saw a wall paint so WASHABLE
Dirt just can't get a "foothold" Super Kem-Tone's tight, non-porous surface, a new achievement in paint chemistry, prevents dirt from penetrating.
Even ordinary inks wash off easily! Spatter ink on it ... instead of soaking in as an ordinary flat paint, it remains on the surface and is easily washed off.
Scrubbing doesn't harm it! Tests have shown that Super Kem-Tone will withstand repeated washing with usual household cleaners without impairing its beauty.
AMERICA'S TOP VALUE IN THRIFTY HOME BEAUTY
Kem-Tone is still your outstanding value where fine home decoration is desired and where the extreme washability of Super Kem-Tone is not required. For economy, for beautiful flat matte finish, Kem-Tone is the choice of millions.
