Paul Cheek **New Acting Postmaster**

J. Paul Cheek, native of Orange County and a veteran of 31 years postal service, was Monday formally sworn in as acting postmaster of Chapel Hill.

> The appointment has been expected momentarily for many weeks It was made formal this morning when a post office inspector came here to check post office records and officially turn over the job to Mr. Cheek, who is the senior Republican in the local post office at present. In fact, Mr. Strowd is the only one of the 35 employees in the local post office who was working there when Mr. Cheek first started his postal employment as a substitute clerk here in 1924.

He will stand a good chance of getting a permanent appointment as postmaster to this office when a civil examination is given for it, as appears likely now.

Just as it is to many another, the yen to fish has a strong anpeal for James Curtis Armstrong, a prisoner at the Orange camp. Or, so it seems.

Armstrong, making his fourth escape while serving a 15-20 year sentence from High Point, got away from the gang working at the Rock Quarry last Thursday. They found him Monday fishing on a creek bank in the western part of the county. He had shed his stripes and borrowed some less conspicuous clothes from a line within a few hundred yards of the county jail and owned by a deputy sheriff's grandson.
