LITTLE RIVER HEREFORD BREEDER TAKES TOP HONOR—Two calves produced in the herd of George Walker of Little River township were the only purebred Herefords to earn the coveted "fancy" rating in last Thursday's successful Feeder Sale sponsored here by the Extension Service. Mr. Walker is shown above with his five-year old bull, grandson of the famous Meredith Farms' Domino Lad C, the 14th, who produced the champion calves. A total of 277 calves were entered in the sale. Mr. Walker consigned eight in all which earned an average rating of "A" and brought \$950 in the sale. They averaged in age 7½ months and in weight 565 pounds. Only other "A" raters in the sale were two Angus calves produced in Rockingham County on the Penn farms and an Angus-hereford cross breed produced by Harold Latta and Dr. C. E. Gardner of Hillsboro, Route 2.

Girl Scouts Fund Drive Opens Oct. 17

A campaign to raise funds to provide training in good citizenship for the girls of Hillsboro and Effland was announced today by Mrs. Max Schiebel of Durham, President of the North Leaf Girl Scout Council of North Carolina, Inc.

A goal of \$1,168 has been set, Mrs. Schiebel said, for the drive which opens October 17 and will extend through October 22. Funds will be used to finance the work of the council during the year 1956 and to extend membership to girls who want to be Scouts. The greater part of the funds will be used to provide a Professional Girl Scout worker who will live in the area and who will offer training, supervision, program, etc. for the volunteer adults.

There is a present membership in Hillsboro and Effland of 74 girls, ages seven through seventeen. Through the Girl Scout program offering service, and training in good citizenship, these girls are growing up to be better qualified to undertake the responsibility that will be theirs in the home and as active citizens of their community.

Chairman for the drive will be J. L. Brown, Jr., who will be assisted by a committee of representatives from each troop sponsoring organization. All committees and workers will be announced later this week. Mr. Brown urged wholehearted support of the drive and asked everyone to support the Girl Scout slogan for this year—'Believe, Belong, Build.'

School Bond Issue Pushed; White Valuation Reviewed

School Boards Asked To Meet On Bond Plans

The Orange County Board of Education agreed to meet with the Chapel Hill school board on November 7 to discuss bond needs and later report to the County Commissioners, but their reluctance to accept an early meeting date was freely interpreted as indicative of a coolness toward a bond issue for schools in the near future.

Chairman R. J. M. Hobbs of the Board of County Commissioners called the two school boards before the commissioners at the Monday session and asked them to get together to look into the educational needs of the county with a view toward calling an election on a substantial bond issue for school construction.

Mr. Hobbs pointed out in his preliminary remarks that it "will not be possible to raise by taxation sufficient funds in the near future to provide for the physical needs of the schools and the people are entitled to know and pass on these needs."

Chairman Carl Smith of Chapel Hill accepted immediately Mr. Hobbs' plea and pledged his board to work for a bond issue. The county board appeared reluctant to act on the matter at an early date, but eventually under prodding agreed to meet with the Chapel Hill unit during their regular meeting time in November.

Both boards were asked to re-examine their needs and list requirements in anticipation of the meeting with the Commissioners to follow. Chairman C. W. Stanford has been quoted as saying this may not be the right time for a bond election, and Member C. D. Jones commented that the meeting with the Chapel Hill board did not necessarily commit them to a bond issue.

Mr. Hobbs said: "I do not regard it as an overpoweringly significant matter, this belief that the citizens might not approve the bond issue, I think they should be given a chance to make the decision."

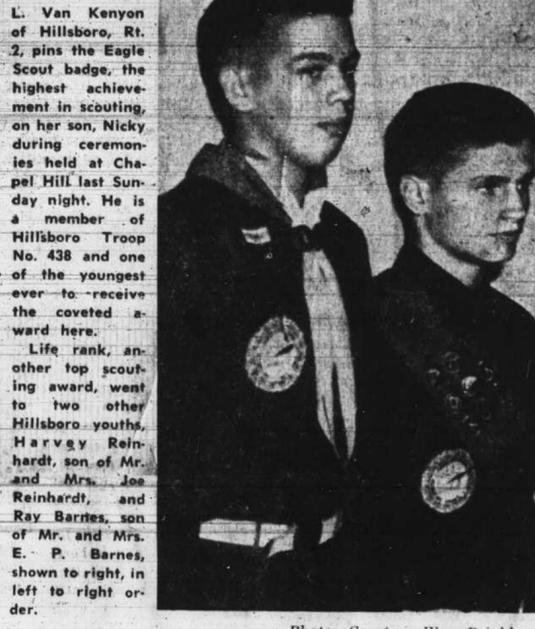

He urged: "Let's all work together in this grave educational crisis before us."

Chairman Carl Smith said he estimated a million dollars would be needed in his end of the county in the next five years.

The commissioners heard a number of road improvement requests and handled a number of routine matters during the day's session. The board received a lengthy job classification and wage survey on all county employees except department heads, elective officials and workers in the welfare and farm and home agents offices and heard an explanation from Donald Hayman of See BOND ISSUE, Page 8

Appeal Held In Abeyance During Study

The Board of County Commissioners this week agreed to take another look into the tax valuation on White Furniture Company's Hillsboro plant and Steve White, the firm's vice president, agreed to hold in abeyance temporarily White's appeal to the State Review Board.

The commissioners last March failed to reduce the protested valuation on the plant here and White paid the \$1,327.05 tax bill "under protest" and filed an appeal to the State body.

Mr. White appeared before the Commissioners Monday and described as "absolutely ridiculous" the valuation placed on buildings of the Hillsboro plant. He offered pictures showing walls which

MISSING COMMISSIONER

The continued absence of Commissioner Simpson L. Effland from board meetings without explanation to his colleagues came in for considerable discussion officially at Monday's meeting of the Board of Commissioners and privately among the members during the day.

Effland has been absent for the past three meetings and has given the board no indication when he plans to return.

Members said Monday they had heard unofficially that the absent member is now working in Texas as a manufacturer's representative and does not expect to return to Orange County until about Christmas.

he contended were almost exactly alike but were valued at widely varying figures by the Clem-inshaw Company, the professional evaluators who conducted the county-wide revaluation two years ago.

The Commissioners later in the afternoon at the close of the session visited the site but took action, pending a discussion of their findings. It was agreed a continuation would be sought in the hearing on the appeal which had been set for next Tuesday. Another appeal, that of Mebane Lumber Co., is still scheduled for that date.

The White plant in Hillsboro has a tax valuation of \$214,040, of which \$84,140 is in real property. No protest is being made of the machinery or personal property valuation.

The Mebane Lumber Co. carries a tax valuation of \$83,355 on which the tax bill is \$516.80.

Mr. White in talking to the Commissioners said he had no desire to go into court and "fight my own home county" and offered to waive any claim to a tax rebate if the commissioners would agree to allow Tax Supervisor Sam Gattis to work out a "fair and just value." He said he was willing to agree on Gattis' sense of fair play and honesty in the question. The Commissioners, however, took the position it was not a matter they could delegate under the law.
