Mystery Farm Of The Week

Last week's "back yard view" of the mystery far n drew a blank from our readers who again proved they are no snoopers when it comes to identifyin g mystery farms. Give us a view from the road, they say, and we'll tell you the owner. So, OK, try ano ther one.

The first to provide the correct identification of the Mystery Farm above will receive a year's free subscription to The News of Orange County and the owner will receive a beautifully mounted photo of

to the Carrboro project. Other al-

lotments were discussed and no

Livestock Farmers Adopts * Idea From Magazine

Progressive farmers are always on the lookout for new improved farm practices. They get a great number of ideas from farm papers and magazines. Frank Perry, who has a livestock farm near Hillsboro, saw a diagram of a homemade mechanism for holding cattle in the Farm Journal. He duplicated this device and reports that it does grand job of catching and holding cattle when it's necessary to administer veterinary chine would cost more than one
