New Electrical Code Is Adopted

The Board of Commissioners adopted a new electrical ordinance for Orange County at Monday's meeting, substantially increasing the authority of the electrical inspectors and limiting the amount of electrical work that can be done by private individuals.

The new ordinance supersedes in all respects the electrical code which has been in effect since 1948 and becomes effective on February 1st.

being done.

Price Wrong, Experience Right

Orange County's white hope for big money on the national TV quiz scene, came back home yesterday disappointed at not bagging the big loot but definitely pleased with his experiences before the

Deputy Sheriff Burch Compton, newly-wed pride of the Cedar Grove area who appeared on the national TV show, "The Price is Right," Monday night, admitted he might have been bidding with Cedar Grove prices instead of Manhatten's, but said tricky factors involved did much to complicate the matter.

appear from the amount of conversation about the Deputy's appearance, had their eyes glued to the TV screens Monday night as the exciting program unfolded and all, even as the MC, Bill Cullen, appeared to be doing, were pulling for the personable officer to win some of the big prizes valued at several thousand dollars which were available for the lucky bidders. He did get a portable TV set and a clock radio as consolation prizes for his trip, on which he was accompanied by another deputy, ex-roommate Ma-

Relative Position Given For All Roads Having At Least 50-Car Per Day Traffic

County Roads Paving Priority

List Revealed By Highway Body

A priority list for paving all Secondary Roads in Orange County with a traffic count of 50 or more vehicles a day was submitted to the Board of County Commissioners this

The county survey and priority list completion is the first phase of the Secondary Road Plan adopted by the new "Hodges" Highway Commission and now in effect through out North Carolina.

The priority list, with accompanying map, was presented to the Commissioners and placed on file at the courthouse Monday by Division Engineer Tom Burton of Greensboro. It shows citizens throughout the county the exact position of their own particular sectional road with respect to paving and in relation to every other road in the county bearing the daily traffic count of 50 or

The roads on the list, their priority rating, their length and the estimated cost for paving may be found in other columns of this newspaper. Total estimated cost for paving the entire list, 79 of them, s \$2.536.343.00

Data on which the priorities are based is on file in the district highway office in Graham and under the plan will be revised annually. Citizens are urged to study the list and are welcome to study the data in Graham if not satisfied with the ratings, which are based on a point system which rates land use characteristics, public service characteristics, and traffic characteristics.

No paving activity, of course, is contemplated during the winter months. Mr. Burton advised the Commissioners, however, he would return about April 1 with a plan-ned program to utilize the availcurrent fiscal year. The plan, for concurrence or suggestion by the improvements, additions to the system, and maintenance plans as well as paving, he said. The aneffect for the county next July for the following fiscal year.

The new paving priority list drew sharp criticism from at least one member of the Board of County Commissioners, Dwight 21 M. Ray of Carrboro, when it was noted that three Carrboro area 22 roads, originally rated 3, 8 and 10 had been marked void in red on 23 the priority list. It was assumed they had been removed from the 24 priority list upon classification as sub-division roads, possibly eligible for paving under mutual par- 25 ticipation agreements with the property owners. Other commissioners were reluctant to comment

upon the list. Two Chapel Hill roads got the No. 1 and 2 priority rating for paying and a Hillsboro area road, 28 know as Old Mt. Willing Road from Hillsboro City Limits to the 29 Betty Riley road was given Priority No. 4. Old Greensboro Street 30 in Carrboro was given Priority
