Three appointments to University faculty announced by President Friday and Board

Three appointments were among faculty changes at the University approved by President William C. Friday and the Board of Trustees.

UNC Chancellor William B. Aycock announced that Samuel S. Hill Jr. has been named assistant professor in the Department of Religion; Dr. Robert L. Hilliard, assistant professor, Department of Radio, Television and Motion Pictures; and Dr. Oscar N. Paris Jr., assistant professor, Department of Zoology.

These new faculty members will begin their teaching duties Sept. 1, 1960. Hill holds the A.B. degree from Georgetown Kentucky College, the M.A. from Vanderbilt, and the B.D. from Southern Baptist Theological Seminary. He will complete requirements for the Ph.D. at Duke University this summer. Last year he taught at Stetson University.

A native of New York City, Dr. Hilliard comes to Chapel Hill from Adelphi College in Garden City, N. Y. He has also served as guest play director at Cleveland College and lecturer at Brooklyn College.

Dr. Hilliard holds degrees from the University of Delaware (B.A.), Western Reserve Univer-

sity (M.A. and M.F.A.) and Columbia University (Ph.D.). He belongs to a number of scholarly and professional organizations and has written several articles for professional journals.

Dr. Paris returns to UNC after receiving his Ph.D. and teaching at the University of California. A native of Greensboro, he earned both his B.A. and M.A. from

the University in Chapel Hill where he was also a teaching fellow from 1954 to 1956.

He has collaborated with Dr. Charles Jenner, chairman of the UNC Zoology Department, on three articles in professional journals. Dr. Paris also belongs to several scholarly and scientific organizations.

1960 wheat support rate is increased

An increase of one cent per bushel in the support rate for 1960 crop wheat was announced today by W. M. Snipes, Chairman of the Agricultural Stabilization and Conservation.

"The increased rate effective in this state, he said, "was brought about by an increase in the wheat parity price on July 1, 1960 above the parity price when the 'minimum' rate was announced in May 1960." With this increase the

final support rate for North Carolina will be \$1.97 per bushel for Grade No. 1 wheat.

Loans on wheat will be available through County ASC offices from harvest time through January 31, 1961. Loans will mature on February 28, 1961.

CONDUCTS STUDY IN MINN.

Psychologist George S. Welsh of the University faculty, an authority on "personality testing," has completed a seminar on the use of the Minnesota Multiphasic Personality Inventory (MMPI) tests for the Minnesota Department of Public Welfare, at the Anoka State Hospital. He has also submitted advice as a consultant to the world-famous Mayo Clinic in Rochester, Minn., on the use of the same tests.

PROMOTED

Layton Gunter, 52, who for the past six years served as district highway engineer for Orange, Alamance and Caswell counties, has been appointed to the post of State Maintenance Engineer and will head the maintenance operation of the entire State highway system.

Hearing Aug. 22 on University site for fraternity court

A legal hearing to permit the setting up of an eight-house fraternity court on University property bordering the Finley Golf Course will be held Aug. 22.

At the same time the Town Aldermen will hold another hearing on annexation to the town of the town of the 12-acre wooded tract on Mason Farm Rd.

The proposals stem from the University's offer to grant a 99-year lease to fraternities for construction of a fraternity court on its land.

This development is contingent on the granting of a special use permit by the aldermen to permit the fraternity location in a residential zone, and on annexation of the area to the Town.

No opposition

When aired before the aldermen on Monday night there was no opposition to the proposal. Fraternity zone extensions have been rejected every time they've been requested during the last three years because of vigorous opposition of residents of the areas proposed for re-zoning.

However the land involved in the new offer by the University does not adjoin any existing residential areas. It is on the west side of Mason Farm Rd., behind The Pines and University Motel, and across the street from a smaller area offered as a smaller fraternity court site three years ago.

At that time the fraternities failed to take up the offer. The present town limits adjoin the new tract envisioned as the location for fraternities that would accommodate over 500 students.

Mayor O. K. Cornwell, a member of the University's Buildings and Grounds Committee, forecast that additional fraternity space might eventually be available if needed in the same area.

A helping word to one in trouble is often like a switch on a railroad track — an inch between wreck and smooth-rolling prosperity.

—Henry Ward Beecher
