65 producers of grain receive over \$8,000 in advance payments

The Orange County ASC Office has accepted 311 feed grain acreage reports from farmers in Orange County which makes them eligible to file an agreement to divert corn and/or grain sorghum from production during the 1961 program year. Of this number, 65 producers have signed agreements to divert 597.9 acres of corn and 81.3 acres of grain sorghum from production in 1961.

Advance payments, which are being made to producers as the agreements are filed, for these 65 producers totaled \$8,288.68. This payment represents a fraction less than 50 per cent of the total payment due on these farms. The remainder of the payment due will be made when performance on the farm has been established.

In order to participate in the 1961 program, producers must file an acreage report for all crops grown on the farm in 1959 and 1960 not later than May 22.

Producers who have been notified of their feed grain base and payment rates per acre must file their intention to participate in the program not later than June 1.
