A HOUSEHOLDER ON CHEEK
St. in Carrboro reported finding a number of strips of tinfoil about a foot long and a half-inch wide around her front yard late Tuesday. Speculation was that they may have been "chaff" cast out by the Air Force in an attempt to disrupt radar detection. Inquiry at the Air Force ROTC unit in Chapel Hill brought out that the material may indeed have been "chaff," could possibly have come from bombers stationed at Seymour Johnson Air Force Base.

OLD FACES IN NEW PLACES
department: Wiley Franklin, who's been with Riggsbee-Hinson Furniture Co. in Carrboro for the past six years, resigned last weekend to take a new post as salesman for Harriss-Conners Chevrolet in Chapel Hill. Replacing him is Billy Wright of Carrboro, a sheriff's deputy for the past 18 months, and whose resignation from the force became effective on Monday of this week. Wright left Riggsbee-Hinson to take the law enforcement job. As of yesterday Sheriff Buck Knight had not hired a replacement as deputy.

THE CHAPEL HILL SCHOOL
Board is having to replace a few pieces of utility equipment at Northside School which were removed in error by the demolition crew which last summer tore down the original wing of the building. The Board is also looking for a supplier of fire retardant paint, which has been recommended for the ceiling of the school building. Paint salesmen who've been questioned about it seem to be familiar with the stuff, but none, to date, can supply it.

AT TUESDAY NIGHT'S HIGH-
ly-charged zoning hearing in Hillsboro, Commissioners' Chairman Donald Stanford ruled with a firm, sure touch. He declined to allow "Dog" Brogden, the anti-zoners' hired lawyer from Durham (who usually whips up the faithful with a caustic tongue) to speak except upon introduction by an Orange County citizen whom he was to represent...and then only for the single five-minute period allowed others. When his adherents sought more time for Brogden's rousings with the device of having five citizens sign a paper saying they wished him to speak for them, the chairman refused to be moved. "Dog" got the bell, figuratively, when his time was up.

BROGDEN, INCIDENTALLY,
said he had spent over 150 hours studying the zoning question and the Orange County ordinance
