THE TIME AND TEMPERATURE clock at Home Savings and Loan in Chapel Hill has hit 94 degrees several times during the past week, but has still missed the prize-money "sizzle" point at 95. Entries are still being accepted in the guessing game for predicting the day and time when the first "sizzle" will be registered. To knowledge of authorities, though, bond for all 35 of these persons was posted through local persons by individual affidavit and signature. The coincidence was that a large sum of money was sent to such a person, but it was used, and used
