Christmas music of the Baroque and other long bygone eras by a recorder ensemble is to take the joy out of the Yule season. This is for the ears of other musicians, or at least, volunteer adult audiences, if you please.

Children can quite naturally be brought to appreciate and participate in Christmas music as early as infancy. This is especially important, since it affords an effective wedge for a wider appreciation of music. It's also necessary, though, to bring 'em along gradually and with careful understanding of their own moods, if we are to avoid scaring 'em away from good music altogether.
