\$90,000 A Year for the Queen.

Madrid, March 12.—The Government presented a bill in the Chamber of Deputies to-day dealing with the marriage contract between King Alfonso and Princess Ena. It ensures the future Queen 450,000 pesetas annually, and provides that she shall receive 250,000 pesetas yearly in the event of her becoming a widow. The Clericals raised some opposition to the measure. The House appointed a committee to report on the matter.

Prime Minister Moret communicated King Alfonso's formal announcement of his forthcoming marriage to both houses. It was read aloud. The Senate was particularly demonstrative in approving it. The Senators cheered and repeatedly cried "Long live the King and future Queen!"

It is understood that after Easter King Alfonso will visit Princess Ena on the Isle of Wight, of which the Princess's mother is Governor.

Five thousand pine trees are to be set out at the opening of spring in the Wichita Mountain forest reserve, as an experiment. The Interior Department has already made the order for the trees.

Has Had Hiccoughs 9 Months.

Philadelphia, March 11.—More than fifty physicians to-day visited Mary Boshotosky, a fifteen-year-old girl, who for more than nine months has been suffering from hiccoughs. None of the many physicians who have treated her at nearly every hospital in Philadelphia has been able to give any relief.

The strange affliction resulted from the girl seeing a little child ground to death underneath a trolley car last summer. Mary fainted at the sight, and when she became conscious was seized with hiccoughs, which have continued ever since.
