CONCORD, N. C. July 25 1904

Every year of an election there is a new alignment of some voters for some reason or the other. Two very prominent changes of party affiliation are thus mentioned by the Philadelphia Record:

"Philip R. Dillon is not so distinguished a man as Oscar Straus, but his change of party may be as influential and as significant. Mr. Straus who was a particularly efficient Minister to Turkey under both Mr. Cleveland and Mr. McKinley, and is at the head of the Civic Federation, has joined the Republican party on account of his admiration for Mr. Roosevelt. Mr. Dillon has for several years been a member of Republican literary bureaus, and for four years has been a member of the literary staff of the Republican National Committee and in charge of the press work of the Republican County of New York. He has left the party because he was no longer in sympathy with it, on the personality of its candidate, and he believes the election of Judge Parker would be a blessing to fundamental Americanism."

There will be other cases similar to these two before the November vote.

Saturday's TRIBUNE was seven columns, a bit larger than ordinary. From point of looks we think a seven column paper is the thing and at an early day within a few weeks we propose to have THE TRIBUNE that size for keeps; that's the fit we want and expect. Lots of our friends have stopped to say a good word and a nice word for Saturday's paper, and the fellow that tussles for 14 hours over a paper appreciates a nice word from friends. Speak a good word for THE TRIBUNE whenever you can and help it whenever possible and the paper will be made to show that the service is appreciated.

## Use of Shell Not Defended.

St. Petersburg, July 25, 3:15 a. m.—The report that the Russian volunteer fleet steamer Smolensk fired shells at the British steamer Ardova is not considered likely to endanger the Anglo-Russian agreement indicated in these dispatches yesterday. It is pointed out that the Ardova had no right to refuse to stop when ordered. At the same time it is fully recognized that the captain of the Smolensk had no business to fire a shell over the decks of the Ardova.

There is considerable annoyance in the naval circles over the failure of the vessels of the volunteer fleet to keep in touch with St. Petersburg by cable. Several days ago, as announced in these dispatches, orders were cabled to the St. Petersburg and the Smolensk, instructing them to abstain from the further stoppage of vessels. These orders were subsequently rendered more imperative, and it is not too much to say that they took the form of a recall of both steamers. There is some anxiety lest the St. Petersburg and Smolensk may precipitate reprisals by British warships now in the Red Sea. It is expected that these steamers will eventually join the Baltic fleet and be replaced by ordinary warships.

Nearly every big man does a lot of mighty little things.

## SQUIBS FROM THE WASHINGTON POST.

The impression is given out that Farmer Parker and Farmer Davis held their conference solely for the purpose of discussing plans for improving their fences.

If Secretary Wilson has a lawn grass that refuses to be stamped out, he should make non-partisan present of some of it to the leading citizen of Esopus.

Visitors who go to Esopus full of volubility come away mute. Why does not Judge Parker insist upon Mr. Bryan visiting him?

There are persons who would rather have \$40,000,000 than be Vice President.

Elihu Root probably feels that if he were defeated for governor of New York, some ambitious person might want to contest that will in which the Presidential mantle was bequeathed to him in 1908.

A telegram from Newport says that Harry Lehr is suffering from brain fog. Serves him right. He has caused enough of it among other folks.

England would probably be glad to avail herself of the scriptural privilege and drown her enemies in the Red Sea.

Raisouli is intimating that he wants the title which goes with his job of ruling Morocco.

Gen. Wood is apt to be charged with lukewarmness if he does not do something pretty soon that can be exploited to the credit of the administration.
