Early September Days

Remind us that the serious duties of life and business are to begin anew. Vacation over—now is the time to get ready for school. We can help all along this line. Fresh stock from all the northern markets are here and still coming. September reminds the mother that fun and frolic have played havoc with the little summer dresses, but we have a host of other things that are eager to take their place, such as Percals, Chambrays, Chevoits and Gingham, all fast colors. There are numerous other things we would like to mention in this line but space forbids. Come and see for yourself. Your welcome will be hearty.
