BLACKBURN—HIS LAST LEG.

The Statesville Landmark of Friday goes for Spencer Blackburn with gloves off. Spence and his crowd have been scattering around Statesville a scurrilous and unwarranted attack on Newland, his opponent. We do not know if such things have been given out here in Cabarrus, but if so the voters should watch out for them. They will do Newland no harm, for considering the source no one should be thrown off guard for a moment. Among other things this unsigned, unendorsed and cowardly circular states that Newland was nominated by a drunken crowd and that whiskey was shipped to Wilkesboro to Newland to accomplish his nomination. There never was a baser lie told than this. Having the undignified and disgraceful convention which nominated a man who does not live in the district in mind the author of this unsigned and cowardly attack applied the method characteristic of some of his own parties dealings to Newland. Anonymous communications are base and cowardly. An honest man who would fight in the open and speak truth is not going to sneak out a batch of printed lies to which no one adds an endorsement. The truth of the matter is that Spence is beaten and he is resorting to such methods as a last hope. But such will not do. A comparison of the two men is like liking day and night. Blackburn is not fit to represent the district if he lived in the district. He is not worthy to tie the shoestrings of a brave, honest man like Bill Newland. The party that resorts to such undermined methods to throw honest men off their guard deserves to continue to be likened unto the old Republican party that brought shame, disgrace and negro rule to the state every time it ever had an opportunity. There are many good Republicans in the district who know Blackburn who will not vote for him. Dr. J. J. Mott is one of these and he recently said that while he would like to see the district represented by a Republican he would not support such a man as Blackburn. All the Revenue fellows and the Federal office holders will willingly vote for Blackburn but good people who have nothing of a selfish nature to gain should never for a moment consider such a thing.

We have not seen or heard of any of these circulars around this county but they should deceive no one. Democracy is on the watch and will be at the polls early and late tomorrow. Every man should do his duty. This is a very important campaign. The Republicans have taken the side of the still against the Watts law. Moral issues are at stake and every man who is on the side of truth, right, good government, schools, care of the infirm and the legal and proper moral restraint of the whiskey traffic should vote a Democratic ticket from top to bottom. Don't be misled by those who are after a Federal job and only hope for success for themselves. Work with Blackburn, who

THE LAST ACT.

The campaign ends. The last act will be the deposit of the ballots on tomorrow. The campaign in Cabarrus has been creditable. It has been free from abuse and questionable methods and we urge the people to follow this spirit at the polls. Let no undue excitement prevail or passion arise. We need hard work all through the day. Every vote must be recorded. Work for the entire Democratic ticket early and late. Be not drawn from your purpose for small reason but give Democracy one full day's work. Don't lose your head, your temper or any of your best energy. Tomorrow tells the story. Remember Newland and see that he carries Cabarrus by a good majority. Don't scratch—vote it all, a scratch means a half vote for the opposition. You have no comfort to give the enemy. We feel confident of Cabarrus going Democratic, but work to swell the majority and to defeat Spencer Blackburn.

Squibs from the Washington Post.

The negro voter is more interested in the supply of campaign gin than in campaign ginger.

Mormon elders are boasting that they never have any divorces. Probably could not afford them, with an alimony feature attached.

Harry Lehr claims to have a parrot that thinks. The next report will be that the parrot is giving Harry lessons.

"Is it right to work for money?" asks the Universal Truth Association, of Chicago. It isn't a question of ethics, but one of necessity.

A Missouri educator defines education as "a transformation from an indefinite, incoherent homogeneity to a definite coherent heterogeneity by a series of differentiations." Governor Cleveland could not have stated it more simply.

Judge Parker says that politics is a science, but still some persons practice it as an art, while others work at it as a trade.

Chicago is worked up over the robbery of a California woman of \$5,000 just as she was going into the city on a train. Chicago always feels sore when an outsider gets the money.

Another evidence of the big stick. Mr. Roosevelt's New York house is now occupied by a club.

Secretary Shaw has given a life-size portrait of himself to a little Iowa girl who listened to him talk for four hours. She earned it.

There are really no good grounds in this full coffee-pot argument that is being made by certain spellbinders.

Now a Texan comes forward with an invention for turning a buggy into an automobile. What is really needed, however, is some invention that will prevent an automobile from turning into a repair shop.

Bulgaria is going to send another ultimatum to Turkey. If this keeps up, the Sultan will have to build a special warehouse for the storage of his ultimatum collection.

"Be Quiet Rosie!" and Child Dies.

Pittston, Pa., Nov. 3.—Mrs. Joseph Nisci was hanging clothes out at West Pittston today, and when her three-year-old daughter in the house cried the mother called out: "Be quiet, Rosie, mamma'll be in in a minute." When the mother finally arrived in the house she found the child had poked live coals from the fire, igniting her clothing, and had burned to death.

Hanged by His Apples Bag.

Bloomsburg, Pa., Nov. 3.—Farmer William Jackson, of Bethel Hill, this county, met death in a peculiar manner. He was in a tree picking apples with a bag swung in the usual way about his neck and shoulders, when he fell, his body coming down on one side of a limb and the bag on the other. The rope fastening the bag twisted about his throat and hanged him.

Had 13 Babies And All Died.

A remarkable story was brought out by Deputy Coroner Frame in an investigation yesterday of the death of a baby belonging to Martin Borgutas, of No. 22 Queen street. The child only two hours after birth. The Borgutas have had 13 children, all of whom died within two months after birth.—Philadelphia Record.

Only one remedy in the world that will at once stop itching of the skin in part of the body. Doan's Ointment.

The Situation is Acute.

New York, Nov. 4.—The specific charge made by Judge Parker that the Standard Oil Company has espoused the Republican cause, the counter charge that Judge Parker was himself mixed up in the shipbuilding trust, together with the general crimination and recrimination have projected a situation of much delicacy into the political world. Neither side is telling all that exists behind the scenes in this trust business, and if somebody should squeal, some Thos. W. Lawson should come to the front the resultant disclosures would put the publicity bureau of the Department of Commerce and Labor out of business.

Men in a position to know declare that Judge Parker is speaking advisedly when he talks about trusts and corporations being allied to the Republican organization. Some of these corporations, it is believed by everybody hereabouts, were friendly to Judge Parker when he was trying to secure the nomination, and after the St. Louis convention promised to contribute to his campaign. When J. Pierpont Morgan changed front the lesser financial lights followed, but not until after some of them made a very clear explanation to the supporters of Judge Parker. Many believe that Judge Parker is familiar with all the details that led up to the altogether amicable understanding which now exists between the administration and Mr. Morgan, and it is this knowledge which Democrats have of the nature of the deal which renders the situation acute.

Mill Men Favor Arbitration.

Fall River, Mass., Nov. 1.—It is understood that steps have been taken to bring about another conference between representatives of the striking cotton mill operatives and the manufacturers to discuss a proposition to submit the strike issue to arbitration. It is said that in answer to repeated claims by the operatives that figures to prove the manufacturers' statement as to costs have never been presented to the unions, the mill men have indicated a willingness to submit such figures for the consideration of disinterested persons or person, who will pass upon their correctness, both sides agreeing to abide by the findings.

Letter to Freeze & Utley.

CONCORD N. C.  
Dear Sir: A barber in Erie, Pa., has been teaching two hotel-men how to paint.

Mr. Christ Wissard is the barber. Three years ago he painted his house and shop Devoe.

A year afterward, the hotels across the street—they are all on corners—were painted, not Devoe.

The story don't tell the first half of the facts; how much the three paints cost per square foot. It tells how they looked last year.

The laugh was not on the barber. His house and shop looked new; the hotels had begun to look old; they'll paint Devoe next time; and next time will come pretty soon.

Yours truly

"I have finished painting three of my houses with L. & M. Paint. It is the best paint for preserving and beautifying houses I have ever used. It covers almost twice as much surface as I expected. I had no idea that the cost of material to paint three houses would be so small. Always give me L. & M. Paint." Yours truly,

Women's Headaches

542 1-3 Congress Street, PORTLAND, MAINE, Oct. 17, 1902.

I consider Wine of Cardui superior to any doctor's medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pain would shoot through my back and sides and I would have blinding headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nineteen days treatment I menstruated without suffering agonies I usually did and soon became regular and without pain.

Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.
