MOSER TAKES HIS LEAVE.

Left Last Night for Pittsburg to Join Philadelphia Team.

Mr. Walter F. Moser, the star pitcher of the Lynchburg baseball team and of the Virginia League, left last night for Pittsburg to join the Philadelphia National League. Mr. Moser before leaving stated that he had never enjoyed his stay in any place as he had in Lynchburg. The people here were so appreciative and kindly that his remembrance of them would always be most pleasant and he felt grateful to them for all their words of encouragement.

Moser made a host of friends here and while they regret that he has left they hope that the move will be for his advancement and that he may do as well in the big league as in Virginia. Moser said that he did not know when he would pitch his first game, but that he would try and let his friends here know.

In the Virginia League, Moser has pitched thirty-three games. Of these he has won twenty-five, lost six and tied two, the latter being with Danville and Norfolk, a record which is not only the best in the Virginia League, but one of the best in professional baseball throughout the country for this season.—Lynchburg News.

A SECOND BURGLAR.

Dove Bost. Co. Store Entered Again Last Night.—Entered by Rear Window.

Burglars made a second entrance at the store of the Dove-Bost Company last night, only a month or two ago the same trick being played on this firm. By means of a wagon tongue the wire grating at one of the rear windows was pried off, the window was up and the burglars had only to walk in.

An attempt was made to get into a safe but this failed, the handle being broken. From the safe the men went to the money drawers—two of them—and a few dollars left there were taken, this being all secured by the burglars. No clue whatever is had as to who did the work.

EMERSARIES IN FRANCE.

Representatives of Cuban Insurrection in France Trying to Solicit Sympathy.

Brewing American Interference With the Trouble.

Paris, Aug. 25.—Emersaries of the Cuban revolution are busy here trying to engage French sympathy for their cause, declaring that the resurrection is due to the Palma government's supreme attitude toward continental interference by America in Cuban affairs. The Emersaries declare that Cuba has been subjected to a thinly veiled American tyranny making liberty a farce and practically duplicating conditions in Cuba before the end of Spanish rule.

COTTON GROWERS MEET TO-DAY.

Cabarrus Growers in Session To-Day Discuss Crop Conditions.—President Moore Present and Addresses Meeting.—Crop Placed at 65 1-2 Per Cent.

The Cabarrus County Growers' Association met today in the court house. The meeting was largely attended and the report on crop conditions was of interest. The townships, through their representatives, reported the condition of the crop at this time. The average of the crop one year ago as made by the association was 68 per cent.

There was a general report from the county townships. Some of these made the crop this year better than last; some about the same, while others thought the condition below last year at this time. The association last year estimated the Cabarrus crop at 11,000 bales, and the weigher's figures show 10,994, only a difference of six bales. This fact was shown as proving the accuracy of the association's reports and estimates. The township reports were as follows:

No. 1	65 per cent.
" 2-67	" "
" 3-75	" "
" 4-65	" "
" 5-65	" "
" 6-70	" "
" 8-70	" "
" 9-65	" "
" 10-60	" "
" 11-60	" "

Making an average of 65 1/2 per cent for the county. The Association heard Mr. C. C. Moore, the president of the State Association. Mr. Moore stated that he did not come to Concord to speak but he was always ready to talk the subject of cotton and the work of the Association. Mr. Moore stated the great importance of the work, the farmers work, of gathering facts, keeping the Association informed. It is the farmers duty to give out the conditions, not leaving it to the fellows who know nothing about it. He emphasized the importance of the farmers standing together for their own interest and give out just fair and accurate reports on the crop. The American citizen is realizing the importance of the cotton crop of the south and every section is watching us closely. Mr. Moore spoke of the necessity of the farmers knowing what they were doing and handling the crop to his advantage. The farmer he said does not care how much money the manufacturers make so long as the farmer gets what he is entitled to for his crop. The Association strives to get this price for the grower and desires the support of every grower. Mr. Moore hit the bucket shops, as being the means of beating down the price.

The President brought up the matter of finance and said the Association needed money to carry on the work, that North Carolina is behind in the support of the Association. Mr. Moore closed by urging the farmers to plant grain this fall, so that the temptation would not come next spring to plant cotton. He said that the chief work of the Association this winter would be along this line.
