ZELAYA ENTERS DENIAL. Declares That He is Not a Prisoner in the Hands of the Mexican Officials in Any Sense of the Word-May Go

to Belgium to Live. Cordoha, Mex., Dec. 28.-Jose Santos Zelaya denied today that he was a prisoner in the hands of the Mexican officials in any sense of the word. He stated emphatically that such was not the case nd that he was free to go where he choose.

Zelaya declared that he favored friendly intervention on the part of the Mexican and United States government, to the end that a consolidation of all the Central American republices might be brought about. He said he believed Secretary Knox

was now realizing the injustice of his city. attitude toward him and declared he never understood why the Secretary should have molested him.

He might go to Belgium to live, he said. In any event, he would not return to Nicaragua until peace is restored. It was his opinion that the war would end within two months, but he would not venture an opinion as to which of the combatants would be finally successful.

The report concerning his wealth. Zelaya sad, were grossly exaggerated. His fortune is not over \$2,000,-000 gold and is invested mostly in Nicaraguan government bonds. He claimed to have avanced the \$50,000 paid on the Emery claim as a personal loan out of his own funds, there having been no money in the government treasury at that time. This amount, he said, had never been refunded to him. He strongly denied that he had wrongly obtained any part of his fortune through concessions of which he had the disposal.

Supreme Curt Justice Howard, of New York Makes Some Very Pertinent Observations.

Troy, N. Y., Dec. 28 .- "The age of patriotism has yielded to the age of commercialism. Uppermost in the human mind today is not, the stars and stripes, but the dollar mark."

Such was the declaration of Supreme Court Justice Wesley O. Howard, in an opinion today reducing the compensation of members of a commission appointed to appraise damages to property resulting from the ages to property resulting from the construction of the Ashokan reservoir in Ulster county, which is to furnish a water supply for New York

"While the commissions furnish avenues for the wreckless escape of many dollars, there are other channels of leakage and wastefully as appalling," said Justice Howard.

"It is to be greatly regretted that no public enterprise can be projected and consummated without this appaling loss, called 'graft.' '' Graft is tot necessarily an illegal expenditure of money, but it is tht unnecessar; vasteful use which characterizes the oustruction of every public welfare

"At lest forty per cent of all the noney appropriated for public use is lost in graft. All things could be possible if this frightful leak could be stopped-roads, canals, libraries, asylums and hospitals.

"Graft is a product of our times and institutions. It is the people who are responsible. They expect graft, and even spoil and booty, to deplete their esources whever any great undertaking is ventured by them; and they look with complacence and toleration and indifference at ravages

apon their property. Graft is as much an element to be reckoned with In computing the cost of a public structure, as is cement or lumber. It has come to be a matter of course-this rake off-a loss reconized by all who ases. A public structure built honstly would be a freak."

Justice Howard declares that the whole project of the condemnation of land in the Ashokan Valley is characterized by waste, disorder and confusion."
