CONCORD RACES

CARL RICHARD'S RACE CAR

The Rookies, the Roughest and The Toughest -- If you were at the Concord Speedway Saturday night, you saw some exciting and good racing from our boys.

The heat race was run and they finished one behind the other. Jerry Waller, Shorty Nichols, Buck Connell and Carl Reeves. They were all in the same heat race. The boys were all battling it out til the finish. Carl found out when he came in the pits, his spark plug wire was off, as that was holding him back.

In the main event, Jerry was doing extra good this week. He was our high man when his oil pressure dropped. He blew his motor. With the help of our boys, Jerry will have his car in tip top shape this week and he will be a rough one to handle as are all our group. When Jerry came in, Carl was the leader of our group. With a heavy foot and swift handling, he was able to finish ahead of Buck. Buck's car was sure swaying in the run. He was giving the boys a hard time. His car seemed to have been running pretty good. Buck, Carl and Shorty won money in the main event.

Shorty was putting his foot on the accelerator, but he must have put it on a little too much. He got spun around and then hit in front. He didn't finish the last lap but

he still finished in thirteenth position. He may not get to race Saturday night but when he gets his car fixed with the help of Jerry, Buck and Carl, Shorty will be ready to out race his 13th position for something closer up. They will all be looking forward to seeing their friends again Saturday night.
