

Watch Out, Mister, Terry Lankford's Got A Bead On You

Terry Lankford, 5 just couldn't wait to try out his new sling-shot. He takes dead aim and fires away, but, boy did that ever sting! His aim just wasn't quite good enough, the rubber band hit his hand. Lucky for

Terry that his brand new sling shot broke, shortly after these pictures were taken, or he may have gotten into some real trouble.

Terry is the son of Mr. and Mrs. Roy Lankford of 53 Watt Street. The Lankford's

have three other children, Sandra, 11, Dale, 9 and Jerry, 3. They had to buy four pairs of sling-shots, but Terry really showed off to his brothers and sister cause he was one to get his picture taken.

Trash Burning Reminders Made,

This is the time of year when everyone is doing fall housecleaning—inside and out. Discarding old bottles or cans in the rubbish fire can mean tragedy if one should explode from the heat and spray potentially-blinding fragments of glass or metal for yards around the incinerator. The danger is even greater if the container still holds some combustible powder or liquid.

Another risky idea is disposing of old batteries in the trash fire. Batteries such as those used in flashlights and portable radios explode with tremendous force when exposed to heat.
