Thurman Miller Sights Mystery Flying Object

Mr. Thurman Miller of 20 Davie Street reported to the Journal that he recently saw a UFO from his bedroom window. "When I first saw these lights," Mr. Miller commented, "I thought it was an airplane. But the lights, which were red, green and white, were not moving, and that was most unusual for an airplane. I watched them for about 20 minutes in the same spot.

A white light would move away from the red and green lights, and disappear leaving only a stationary white light. Then another or the same white light would move under the stationary white light and the red and green lights would come on.

Then, after about two minutes the white light would leave again and the same process repeated. It reminded me of something like a refueling process that I've seen on T.V. I have no idea what it was, but I surely would like to have had a powerful telescope at that time."

Mr. Miller's children, Barbara, 14, and Bill, 10, also watched these same lights from their porch.

I'm sure Harold Foster is glad to know that others have seen strange objects in the sky. Maybe someone else will share in all the kidding Harold's been taking for the past couple of years.

Gone, Less Than 3 Months, Homesick Creasons Return

"The Creasons are back home to stay". That's the statement made by Mr. and Mrs. Denny Creason and daughter Kim, who arrived home Saturday after living in Stonewall, Mississippi since June 1st.

Denny, was employed by Burlington Industries, and transferred to Stonewall, but due to the unpleasant pressure put on him by his wife and daughter, was forced to move back to Cooleemee. The fact that they had already sold their almost new home did not make the slightest bit of difference to his wife, Jo. "I'd be willing to live in a tent", she pleaded,

"Just so long as it's in Cooleemee."

Denny plans to work close enough to Cooleemee that he can commute and is in the process of buying another home here.

It's easy to understand a native of Cooleemee not wanting to leave their home town, but Jo, who is formerly of Florida, was never here until after her marriage, but considers this home.

"To be as unsettled as we are", Denny smiled, "Would you believe that Jo Creason is the happiest woman in Cooleemee?"
